

UNIT 9

INTERNET IN DAILY LIFE

Learning Objectives

- Understand the impact of the internet on daily life, including communication, learning, and shopping.
- Recognize and describe key online activities (e.g., emailing, messaging, social networking).
- Use search engines for research and explore educational videos.
- Describe the convenience of online shopping.
- Practise internet skills, such as sending emails and searching for information.

INTERNET IN DAILY LIFE

UNIT 9

INTERNET IN DAILY LIFE

The world has changed a lot since the internet was invented. It affects our daily lives in many ways. Let's find out how.

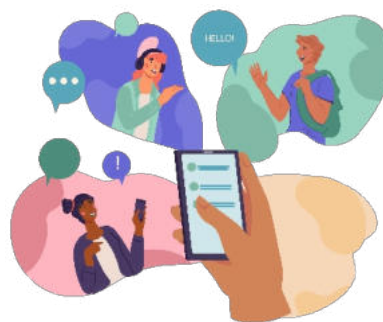

EMAIL

Email is one of the earliest uses of the internet and remains very popular. People use it to stay in touch with family and friends. Email services like Gmail, Hotmail, Yahoo Mail, and Outlook help us send and receive messages quickly.

MESSAGING AND CHATTING

Today, messaging and chatting are very common through platforms like WhatsApp, Skype, Viber, IMO, and Telegram. They allow us to send text and voice messages, make video calls, and share files. In the past, instant messaging (IM) was mainly text-based and used services like MSN Messenger and Yahoo! Messenger.

UNIT 9

INTERNET IN DAILY LIFE

SOCIAL NETWORKING

Social networking websites help people stay connected with friends and share their interests. Platforms like Facebook, Twitter, LinkedIn, and Instagram let users share photos, videos, and updates. Facebook is one of the most popular social networks, and it was created by Mark Zuckerberg in 2004.

ONLINE GAMING

The internet is also used for online gaming, which can help improve thinking and coordination skills. Popular gaming websites include miniclip.com and duckgame.net.

ONLINE SHOPPING

The internet makes it easy to shop online. Websites like Amazon, eBay, and Alibaba allow us to buy clothes, books, and other items and have them delivered to our homes.

DO YOU KNOW?

Ask an adult before clicking any unknown link or ads.

UNIT 9

INTERNET IN DAILY LIFE

GENERAL RESEARCH

We can search for information on the internet using search engines like Google, Bing, and Yahoo. This helps us find out more about different topics, such as books, movies, or weather.

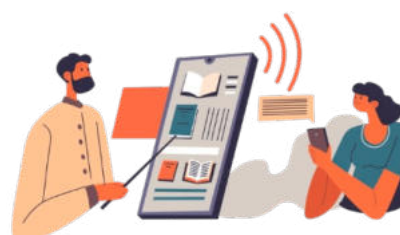

WATCHING AND LISTENING

The internet allows us to watch videos, listen to music, and learn through educational videos on websites like YouTube, DailyMotion, TED, and Vimeo.

ONLINE INFORMATION RESOURCES

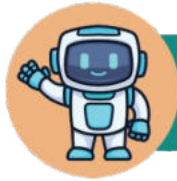

Dictionaries, thesauruses, and encyclopedias are available online, which makes it easier for people to learn new words and gain knowledge. Some useful websites are dictionary.com and thesaurus.com.

UNIT 9

INTERNET IN DAILY LIFE

EXERCISE 1

Circle the correct answer.

1. What is one of the major impacts of the internet on daily life?

A

It slows down communication
