

UNIT 3

YOU HAVE GOT THE MAIL!

Learning Objectives

- Define email and its purpose as a communication tool.
- Create a Gmail account following step-by-step instructions.
- Access and organize emails within the inbox.
- Compose and send emails, understanding the use of "To," "CC," and "BCC" fields.
- Attach files to an email and verify successful upload.
- Send emails to multiple recipients using "CC" and "BCC."

UNIT 3

YOU HAVE GOT THE MAIL!

EMAIL

Email, stands for electronic mail, is a method of exchanging digital messages over the internet. It allows users to send and receive messages, documents, images, and other files quickly and efficiently. Email has become an essential communication tool in both personal and professional contexts, enabling instant communication across the globe. With an email account, users can send messages to one or multiple recipients, organize their messages in folders, and access their email from various devices such as computers, tablets, and smartphones.

How to Create an Email Account (Gmail)

Creating a Gmail account is simple and can be done in a few easy steps:

- 1. Visit the Gmail Website:** Go to www.gmail.com on your web browser.
- 2. Click on "Create Account":** You will see an option to "Create account." Click on it.
- 3. Fill in Your Information:** You will be prompted to enter your first and last name. Then, create a username that will be part of your email address (e.g., username@gmail.com).

UNIT 3

YOU HAVE GOT THE MAIL!

4. Create a Password: Choose a strong password and confirm it by typing it again in the designated field.

5. Complete the Form: Fill in the required fields, including your phone number, recovery email address, date of birth, and gender. Your phone number is essential for account recovery and security.

The screenshot shows the 'Basic information' step of Google account creation. It features the Google logo at the top left. Below it, the text 'Basic information' is followed by 'Enter your birthday and gender'. To the right, there are input fields for 'Month' (a dropdown menu), 'Day' (a text box), and 'Year' (a text box). Below these is a 'Gender' dropdown menu. A link 'Why we ask for birthday and gender' is located below the gender field. At the bottom right is a blue 'Next' button. At the bottom left, it says 'English (United States)' with a dropdown arrow. At the bottom right, there are links for 'Help', 'Privacy', and 'Terms'.

6. Verify Your Phone Number: Google will send you a verification code via SMS. Enter the code to verify your phone number.

7. Agree to the Terms and Conditions: Read through Google's privacy policy and terms of service, then click "I agree" to accept them.

8. Set Up Your Profile: You can add a profile picture and complete additional settings. This step is optional.

9. Your Gmail Account is Ready: Once you finish the setup, you will be taken to your new Gmail inbox.

UNIT 3

YOU HAVE GOT THE MAIL!

Checking Email in Inbox

Once you have created your Gmail account, you can check your email by following these steps:

1. Log In to Your Account: Go to www.gmail.com and enter your email address and password.

2. Access Your Inbox: After logging in, you will see your inbox, which displays a list of all your received emails. The newest emails will appear at the top.

3. Identify Unread Emails: Unread emails will be bold, making them easy to identify. Click on any email to read its contents.

Composing and Sending Email

To compose and send an email using Gmail, follow these steps:

1. Click on "Compose": In your Gmail inbox, click the "Compose" button located in the upper left corner.

2. Enter the Recipient's Email Address: In the "To" field, type the email address of the person you want to send the message to.

3. Add a Subject: In the "Subject" line, provide a brief summary of your email's content.

4. Write Your Message: In the main text area, type your message.

UNIT 3

YOU HAVE GOT THE MAIL!

5. Send the Email: Once you are satisfied with your message, click the "Send" button located at the bottom of the compose window.

Sending Emails to Multiple Recipients

- **Using CC and BCC:** The "CC" (carbon copy) field sends a copy of the email and shows the email address to all recipients. The "BCC" (blind carbon copy) field sends a copy of the email to others without revealing their email addresses to everyone.

UNIT 3

YOU HAVE GOT THE MAIL!

Attaching a File

To attach a file to your email in Gmail, follow these steps:

1. Compose a New Email: Click on "Compose" to create a new email message.

2. Click on the Paperclip Icon: At the bottom of the compose window, you will see a paperclip icon. Click on this icon to attach files.

3. Select the File: A file browser window will open. Navigate to the location of the file you want to attach, select it, and click "Open."

4. Confirm the Attachment: Once the file is uploaded, you will see the file name displayed below the subject line in the email.

5. Finish Composing Your Email: Add recipients, a subject, and message content as needed.

6. Send the Email: Click "Send" to email the message along with the attached file.

EXERCISE 1

UNIT 3

YOU HAVE GOT THE MAIL!
