

UNIT 7

WHAT IS AI?

Learning Objectives

- Define AI and its human-like abilities.
- Explain AI's role in education (e.g., personalized learning, virtual tutors).
- Identify benefits of AI tools like ChatGPT, Grammarly, and Gemini.
- Describe how AI enhances learning and automates tasks.
- Discuss AI's impact on education for students and teachers.

UNIT 7

WHAT IS AI?

INTRODUCTION TO ARTIFICIAL INTELLIGENCE (AI)

Artificial Intelligence, or AI, refers to the ability of machines and computers to mimic human thinking and behaviour. This technology allows machines to learn from experience, adapt to new inputs, and perform tasks that typically require human intelligence. In simpler terms, AI enables computers to think and act like humans.

HOW AI IS HELPFUL IN EDUCATION

AI has the potential to transform education in many exciting ways. Here are a few examples of how AI can be helpful in your learning journey:

1. Personalized Learning:

AI can analyze students' strengths and weaknesses, allowing it to recommend personalized learning plans. This means that you can learn at your own pace and focus on areas where you need improvement.

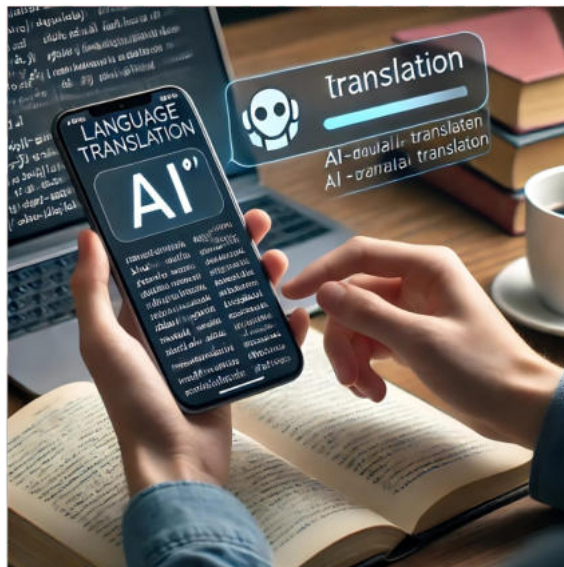

UNIT 7

WHAT IS AI?

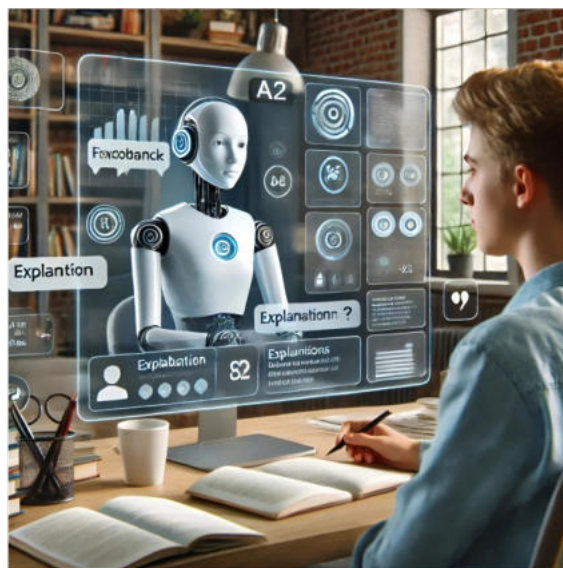

2. Language Translation:

With AI-powered tools, you can easily translate languages. This is especially helpful for students learning new languages or for those who want to communicate with friends from different countries.

3. Virtual Tutors:

AI can provide instant feedback on your homework or assignments. Virtual tutors can help answer questions, explain difficult concepts, and assist you in studying.

UNIT 7

WHAT IS AI?

4. Interactive Learning:

AI can create engaging quizzes and games that make learning fun! These tools can adjust the difficulty of questions based on your performance, ensuring that you are always challenged at the right level.

5. Data Management:

Teachers can use AI to analyze student performance data, helping them understand how to improve their teaching methods and provide better support to their students.

UNIT 7

WHAT IS AI?

6. Time Efficient:

AI can automate routine tasks such as grading, scheduling, or organizing study materials, giving both students and teachers more time to focus on meaningful activities.

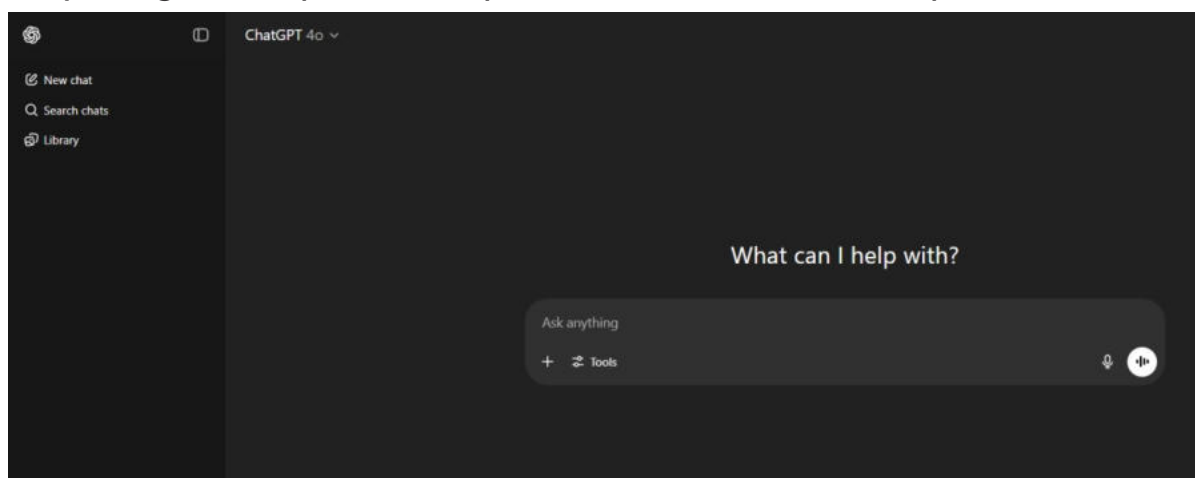

AI TOOLS EXPLORATION

Here are some user-friendly AI tools and apps that can help you in your studies:

1. ChatGPT:

A friendly chatbot that can answer your questions, help with homework, or engage in fun conversations. You can ask it anything, and it provides quick and informative responses.

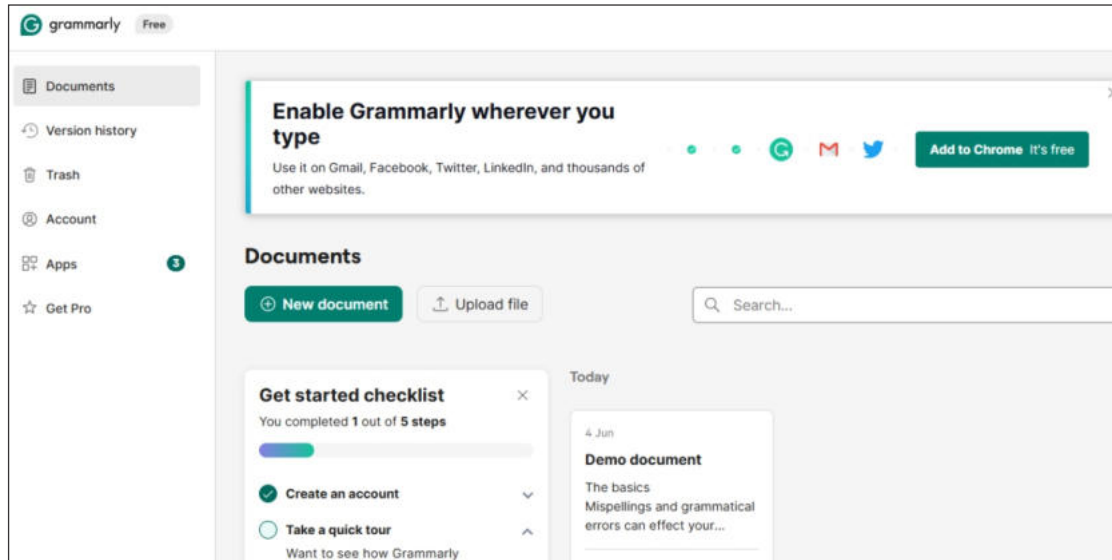

UNIT 7

WHAT IS AI?

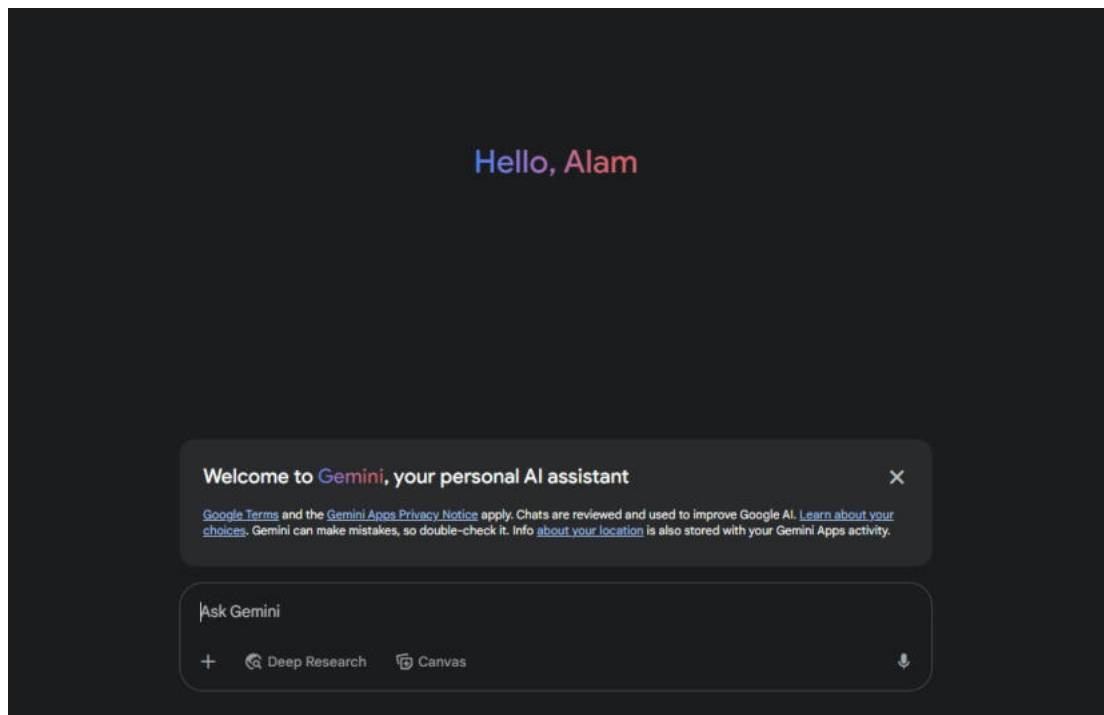

2. Grammarly:

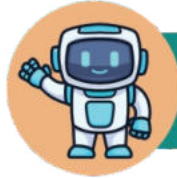

An AI writing assistant that helps you check your grammar and spelling while writing. It provides suggestions for improving your writing style and clarity.

3. Gemini by Google:

Gemini is a super-smart computer brain that helps people understand things, write stories, and learn new stuff, like a very clever helper!

EXERCISE 1

UNIT 7

WHAT IS AI?

Circle the correct answer.

1. What does AI stand for?

A Analytical Intelligence

B Automated Intelligence

C Artificial Intelligence

D Adaptive Intelligence

2. Which AI tool provides grammar and style suggestions for writing?

A ChatGPT

B Gemini by Google

C Grammarly

D Virtual Tutor

3. How does AI help in personalized learning?

A By assigning the same tasks to all students

B By analyzing students' strengths and weaknesses

C By removing all quizzes and games

D By translating different languages

4. What is a super-smart computer brain that helps people understand things?

A Grammarly

B None of the above

C ChatGPT

D Gemini by Google

5. What is one benefit of AI in education?

A It slows down learning

B It provides personalized learning plans

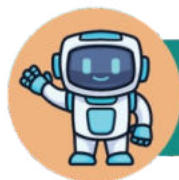

C It prevents students from communicating with others

D It removes teachers from classrooms

UNIT 7

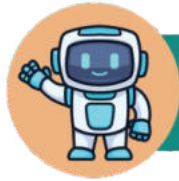

WHAT IS AI?

EXERCISE 2

Fill in the blanks.

1. _____ is a technology that enables computers to mimic human thinking and behaviour.
2. In education, AI can provide _____ learning by adapting to each student's needs.
3. _____ is an AI writing assistant that checks grammar and suggests writing improvements.
4. With AI, teachers can manage _____ data more effectively, helping them understand student performance.
5. _____ is a super-smart computer brain that helps people understand things.

EXERCISE 3

UNIT 7

WHAT IS AI?

Mark "True" or "False".

TRUE

FALSE

AI stands for Artificial Intelligence and helps computers think like humans.

☐☐

Virtual tutors powered by AI cannot provide feedback on assignments.

☐☐

AI tools can help teachers analyze student performance data.

☐☐

AI-powered language translation is useful only for English speaking students.

☐☐

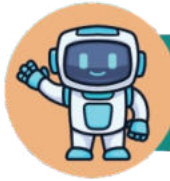

Gemini by Google uses AI to help students understand homework questions.

☐☐

UNIT 7

WHAT IS AI?

EXERCISE 4

Match the following terms with their descriptions.

Term	Description
ChatGPT	A tool that checks grammar, spelling, and writing style.
Grammarly	Tailors learning plans based on individual strengths and weaknesses.
Gemini by Google	A chatbot that answers questions and helps with homework.
Personalized Learning	Is a super-smart computer brain that helps people understand things, write stories, and learn new stuff.

WHAT IS AI?

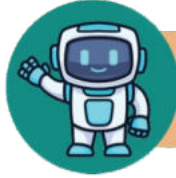

- 1. What is Artificial Intelligence (AI) in simple terms?**
- 2. Name two ways AI can be helpful in education.**
- 3. How does Grammarly assist students in their studies?**
- 4. What role does AI play in interactive learning?**
- 5. Explain how virtual tutors can benefit students.**

[illegible]

UNIT 7

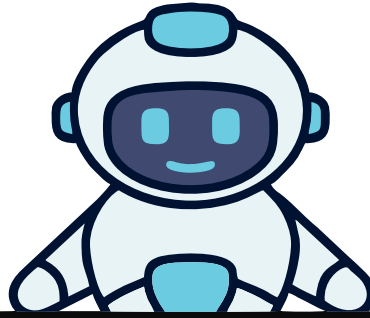

WHAT IS AI?

LAB ACTIVITY

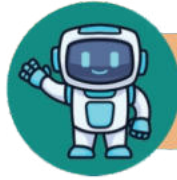

EXPLORE HOW AI TOOLS CAN SUPPORT LEARNING.

Instructions:

1. Choose one AI tool from the list (ChatGPT, Grammarly, or Gemini by Google).
2. Use the tool to complete a small task, such as checking grammar (Grammarly), asking a question (ChatGPT), or solving a homework problem (Gemini).
3. Write a short reflection on how the tool helped you and what you learned from it.

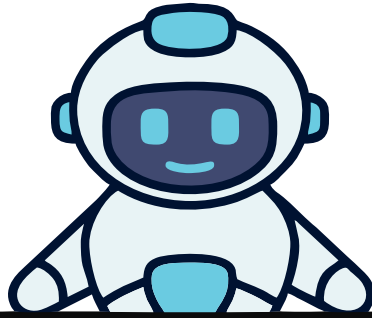

LAB ACTIVITY

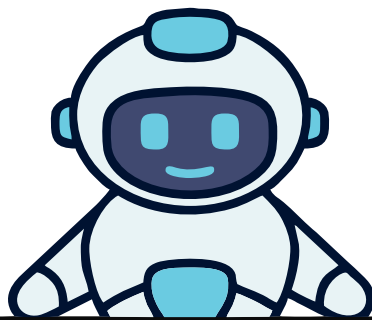

UNIT 7

WHAT IS AI?

Grammarly Practice: Write a short paragraph on a topic of your choice and then use Grammarly to check your writing. You should note the suggestions and improve your paragraph accordingly.

Gemini Homework Help: Take a photo of a homework question you find challenging and use the Gemini app to get help. Then present your findings to the class.
