

21 COMPREHENSION

National Heroes of Pakistan

National heroes are people who work hard, make sacrifices, and inspire others to build a better nation. Pakistan has many heroes who have played a significant role in its history and development. Let's learn about some of them:

Quaid-e-Azam Muhammad Ali Jinnah

Born: December 25, 1876

Died: September 11, 1948

Muhammad Ali Jinnah, known as Quaid-e-Azam (the Great Leader), is the founder of Pakistan. He worked tirelessly for the independence of Muslims in the Indian subcontinent. His leadership, honesty, and determination united the people to achieve freedom. Pakistan came into existence on August 14, 1947, because of his vision.

Allama Iqbal

Born: November 9, 1877

Died: April 21, 1938

Allama Iqbal, known as the Poet of the East, dreamed of a separate homeland for Muslims. His poetry inspired people to fight for their rights and work for a better future. He is also known as Mufakkir-e-Pakistan (the Thinker of Pakistan) and Shaair-e-Mashriq (the Poet of the East).

Fatima Jinnah

Born: July 31, 1893

Died: July 9, 1967

Fatima Jinnah, the sister of Quaid-e-Azam, is called the Mother of the Nation. She supported her brother in the struggle for independence and worked to improve the lives of women in Pakistan. She is remembered for her strength and dedication to Pakistan.

Abdul Sattar Edhi

Born: February 28, 1928

Died: July 8, 2016

Abdul Sattar Edhi was a humanitarian who devoted his life to helping the poor and needy. He founded the Edhi Foundation, which provides free hospital, orphanage, and ambulance services. He is known as "The Angel of Mercy" for his kindness and generosity.

Dr. Abdul Qadeer Khan

Born: April 1, 1936

Died: October 10, 2021

Dr. Abdul Qadeer Khan is known as the father of Pakistan's nuclear program. He worked hard to make Pakistan a strong and secure country. His contributions made Pakistan the first Muslim country to have nuclear power.

Vocabulary

Sacrifice

Giving up something important for a cause.

Determination

Staying strong and focused on achieving a goal.

Humanitarian

Someone who works to help others.

Vision

The ability to see or imagine a better future.

Inspire

To encourage others to do something great.

21.1 Answer the following questions.

 Who is known as the founder of Pakistan?

 What is Allama Iqbal's contribution to Pakistan?

 How did Fatima Jinnah support her brother?

 Why is Abdul Sattar Edhi called "The Angel of Mercy"?

 What was Dr. Abdul Qadeer Khan's role in Pakistan's development?

 What can we learn from the lives of Pakistan's national heroes?

The Brave Little Girl

Read the story of a little girl who helps her village.

Once there was a little girl named Amina who lived in a small village. One day, a heavy storm hit the village, and many houses were damaged. Amina saw that her neighbours needed help.

She gathered her friends and started helping the villagers. They cleaned the streets, brought food to the elderly, and fixed broken roofs. Amina's bravery and kindness inspired everyone.

The villagers were so grateful that they organized a small party to thank her. Amina learned that even small actions can make a big difference.

Vocabulary

Brave

Showing courage in difficult situations.

Grateful

Feeling thankful for something.

Inspire

To encourage others to do something good.

21.2

Answer the following questions.

 What happened to the village during the storm?

 What did Amina and her friends do to help the villagers?

 Why did the villagers organize a party?

 Find the nouns in the sentence: "The villagers thanked Amina for her help."

Planet Earth

Read the information about planet Earth.

Earth is the planet we live on and the third planet from the Sun. It is special because it supports life, providing air, water, and soil for plants, animals, and humans. Earth is called the "Blue Planet" as 70% of its surface is water. The rest is land, with mountains, forests, deserts, and plains.

Earth's atmosphere protects us from harmful rays and provides oxygen to breathe. It has one moon, which causes ocean tides and lights up the night. Earth rotates to give us day and night and orbits the Sun, taking 365 days to complete a year, which causes seasons.

To keep Earth healthy, we should plant trees, save water, and reduce pollution.

Vocabulary

Planet

A large object in space that orbits a star.

Atmosphere

The layer of gases around a planet.

Orbit

To move in a path around something.

21.3

Answer the following questions.

Why is Earth called the "Blue Planet"?

What does Earth's atmosphere do?

How long does it take for Earth to orbit the Sun?

Name one way we can take care of Earth.

A Visit to the Zoo

One sunny morning, my family went to the zoo. I was very excited because it was my first time visiting the zoo. When we arrived, the first animals we saw were the lions. They were sitting under a tree and roaring loudly. It was a little scary but also fun! We also saw monkeys swinging from tree to tree. They were playing and making funny faces. The colourful parrots were next. One of them even said, "Hello!" We then went to see the elephants. They were very big and were eating leaves. I liked the giraffes too; they had long necks and ate from tall trees. My brother and I also saw zebras with beautiful black and white stripes. After seeing all the animals, we had ice cream. It was a wonderful day, and I can't wait to visit the zoo again!

Vocabulary

Roaring

Making a very loud noise.

Scary

Frightening.

Stripes

Long, narrow bands or strips differing in colour placed together.

21.4

Answer the following questions.

 What animals did the family see at the zoo?

 How did the monkeys behave?

 Which animal did the writer find the biggest?

 What did the writer and their brother do after seeing the animals?

 Why was the writer excited to visit the zoo again?

Pakistan Forces

The Pakistan Armed Forces are the defenders of our country. They work tirelessly to protect Pakistan's borders and ensure the safety of its people. The armed forces are made up of three main branches: the Army, the Navy, and the Air Force.

Pakistan Army

The Pakistan Army is responsible for protecting the land borders. It is known for its bravery and discipline. The soldiers work in all kinds of environments, from deserts to mountains, to keep our country safe. They also help people during natural disasters like floods and earthquakes.

Pakistan Navy

The Pakistan Navy protects the country's waters. It has ships, submarines, and highly trained sailors who ensure that Pakistan's seas are safe. The Navy also helps in rescue operations and guards our coastline from threats.

Pakistan Air Force (PAF)

The Pakistan Air Force defends the skies of Pakistan. It has modern fighter jets and well-trained pilots who are ready to face any challenge. The PAF also plays an important role in delivering supplies and providing aid to remote areas.

Together, the Pakistan Armed Forces work to protect the nation and maintain peace. Their courage, hard work, and dedication make them a source of pride for all Pakistanis.

Vocabulary

Defenders

Those who protect something from harm.

Borders

The edges or boundaries of a country.

Discipline

The practice of being well-organized and following rules.

Submarine

A watercraft that can travel underwater.

Fighter jet

A fast military aircraft used in combat.

21.5

Answer the following questions.

 What are the three branches of the Pakistan Armed Forces?

 What is the responsibility of the Pakistan Army?

 How does the Pakistan Navy protect the country?

 What role does the Pakistan Air Force play?

 Why are the Pakistan Armed Forces a source of pride for the nation?

 Find the nouns in this sentence: "The Navy guards Pakistan's coastline from threats."

Planning a School Project

Ali and Sara, two Grade 4 students, were assigned a science project for their class. The topic was "The Solar System," and they had to make a model and write a report. They were excited about the project but knew it required teamwork to complete on time.

Ali: Hey Sara, have you started your part of the science project?

Sara: Not yet, Ali. I'm trying to understand how to draw the planets, but it's tricky.

Ali: We need to submit it by Friday! Have you gathered the materials for the model?

Sara: Yes, I have. But I still need to label the planets and finish the diagrams for the report.

Ali: I can help you with the drawings! I've already done something similar for my art class.

Sara: Really? That would be awesome! I also need to add some details to the planet descriptions. Can you help with that too?

Ali: Sure! Let's meet at my place after school and work together.

Sara: Thanks, Ali! With your help, we'll make it the best project in class!

Together, Ali and Sara decided to divide the work. Sara would focus on writing the details, while Ali would draw the planets and label them. By combining their strengths, they were confident their project would turn out amazing.

21.6

Answer the following questions.

 What is the topic of the science project that Ali and Sara are working on?

 What materials did Sara already gather for the project?

 What tasks will Ali and Sara work on together?

 How does teamwork help Ali and Sara finish their project?

 Write a dialogue where you and your friend discuss dividing tasks for a school project.
