MULTIPLICATION

$$2 \times 2 = 4$$

$$3 \times 1 = 3$$

MULTIPLICATION

- **Multiplication by 10 and its multiples.**
- When we multiply by 10, we move the number one column to the left and fill in the unit's place with zero.

For example:

$$\begin{array}{r} 25 \\ \times 10 \\ \hline 250 \end{array}$$

When **25** is multiplied by **10**, we get **250**.

- When we multiply by 100, we move the number two columns to the left and fill in the tens and units places with zeros.

For example:

$$\begin{array}{r} 25 \\ \times 100 \\ \hline 2500 \end{array}$$

When **25** is multiplied by **100**, we get **2,500**.

- When we multiply by 1,000, we move the number three columns to the left and fill in three zeros.

For example:

$$\begin{array}{r} 25 \\ \times 1000 \\ \hline 25000 \end{array}$$

MULTIPLICATION

When **25** is multiplied by **1,000**, we get **25,000**.

- When we multiply by 10,000, we move the number four columns to the left and fill in four zeros.

For example:

$$\begin{array}{r} 25 \\ \times 10,000 \\ \hline 250,000 \end{array}$$

When **25** is multiplied by **10,000**, we get **250,000**.
