

UNIT 4

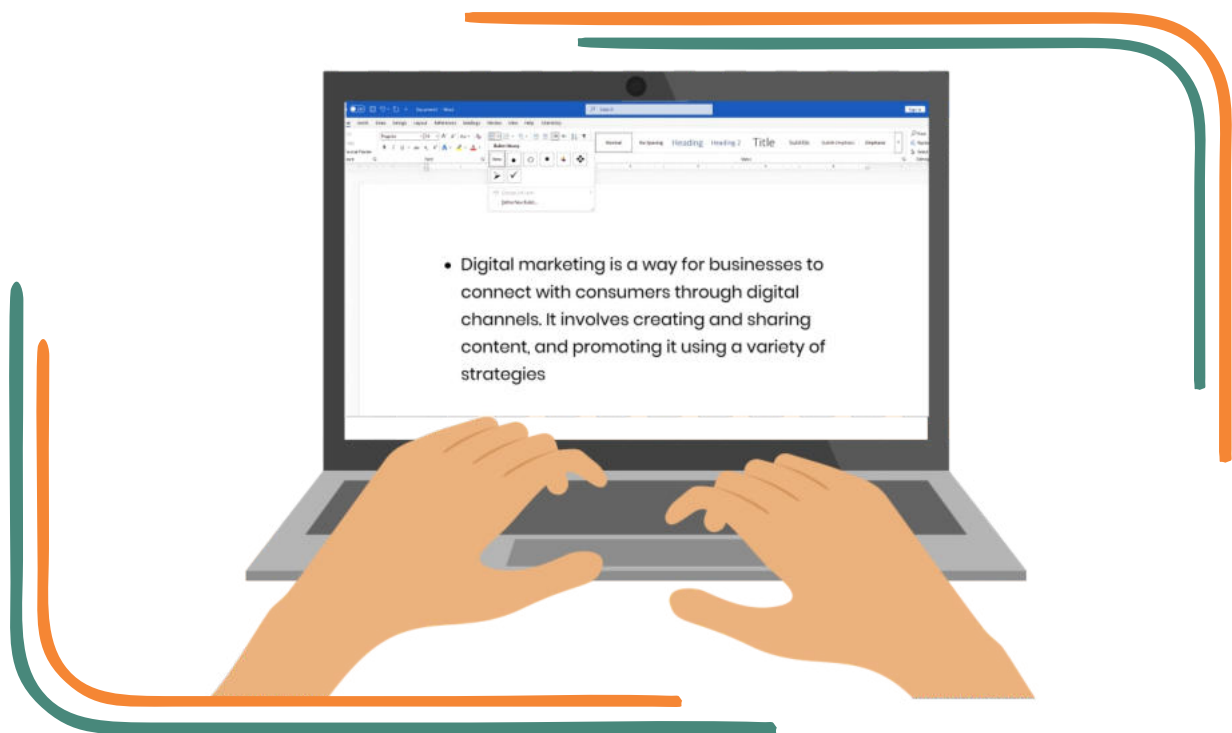

ENHANCING DOCUMENTS WITH TABLES, LISTS, HEADERS, FOOTERS, WATERMARKS, AND BORDERS

Learning Objectives

- Learn how to create lists using bullets and numbering.
- Understand how to create and format tables to organize data in MS Word.
- Learn to add and format headers and footers.
- Discover how to insert page numbers, date, and document titles in headers and footers.
- Add watermarks for branding and use page borders to improve the document's appearance.

In previous classes, we explored basic MS Word features like formatting text, aligning paragraphs, inserting images, and using tools like superscript, subscript, and line spacing. Now, in **Grade 5**, we'll go a step further by learning to create and format tables, add headers and footers, use bullets and numbering for lists, and enhance documents with watermarks and page borders. These features will help you organize information better and give your documents a more professional appearance.

Creating Lists with Bullets and Numbering

Lists help organize information clearly and make it easy to read.

In MS Word 2021, the types of lists available are:

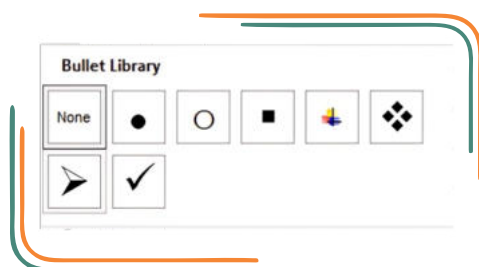

1. Bulleted Lists
2. Numbered Lists
3. Multilevel Lists
5. Custom Lists
4. Outline Numbered Lists

How to Create a Bulleted List:

1. Select the text you want to turn into a list.
2. Go to the **Home** tab on the Ribbon.
3. Click on the **Bullets** icon  in the Paragraph section.
4. Choose a bullet style from the list, or click on **Define New Bullet** to customize it.

How to Create a Numbered List:

1. Select the text you want to turn into a list.
2. Go to the **Home** tab on the Ribbon.
3. Click on the **Numbering** icon  in the Paragraph section.
4. Choose a numbering style, or click on **Define New Number Format** for more options. Using bullets and numbering helps highlight important points or create step-by-step instructions in an organized way.

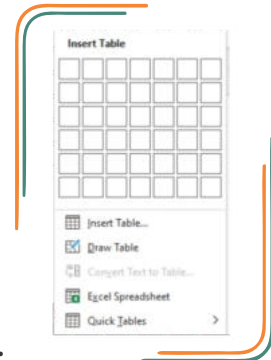

Tables

Tables are useful for organizing information in rows and columns. They are commonly used to present data neatly, making it easy for readers to understand.

Creating a Table

1. Go to the **Insert** tab on the Ribbon.
2. Click on **Table**.
3. Select the number of rows and columns by dragging your mouse over the grid, then release the mouse when you have the right size.

Formatting a Table

After creating a table, you can make it look better by changing its style and layout.

- **Table Styles:** In the **Table Design** tab, you can select various table styles to match the document's theme.
- **Merging Cells:** To merge cells (combine two or more cells into one), select the cells, right-click, and choose **Merge Cells**. This is helpful for creating headers in tables.
- **Aligning Text in Cells:** You can align text to the top, middle, or bottom of a cell. Right-click on the cell, go to **Cell Alignment**, and choose the alignment option you prefer.

Headers and Footers

Headers and footers are areas at the top and bottom of each page in a document. They provide useful information, such as page numbers, that appear on every page.

Adding a Header or Footer

1. Go to the **Insert** tab on the Ribbon.
2. Click on **Header** or **Footer**.
3. Choose a **style** from the list, and the header or footer area will open on the page.

Formatting Headers and Footers

You can add various elements to headers and footers, like page numbers, dates, and document titles.

- **Page Numbers:** In the header or footer area, go to the **Header & Footer** tab and click **Page Number**. Choose where you want the page number to appear.
- **Date and Time:** To add the current date and time, click **Date & Time** in the **Header & Footer** tab.
- **Document Title:** Type the document title directly in the header or footer to display it on every page.

Headers and footers help make documents look organized and provide important information, such as page numbers, that's especially useful for longer documents.

Watermarks and Page Borders

Watermarks and borders add style to your document, making it look more professional.

Adding a Watermark

Watermarks are light, faded text or images that appear in the

background of each page. They are often used to show the document's purpose, like "Confidential" or "Draft."

1. Go to the **Design** tab.
2. Click on **Watermark**.
3. Choose from the list, or click **Custom Watermark** to create your own.
4. In a custom watermark, you can type text like "**Off The School**" or insert an image.

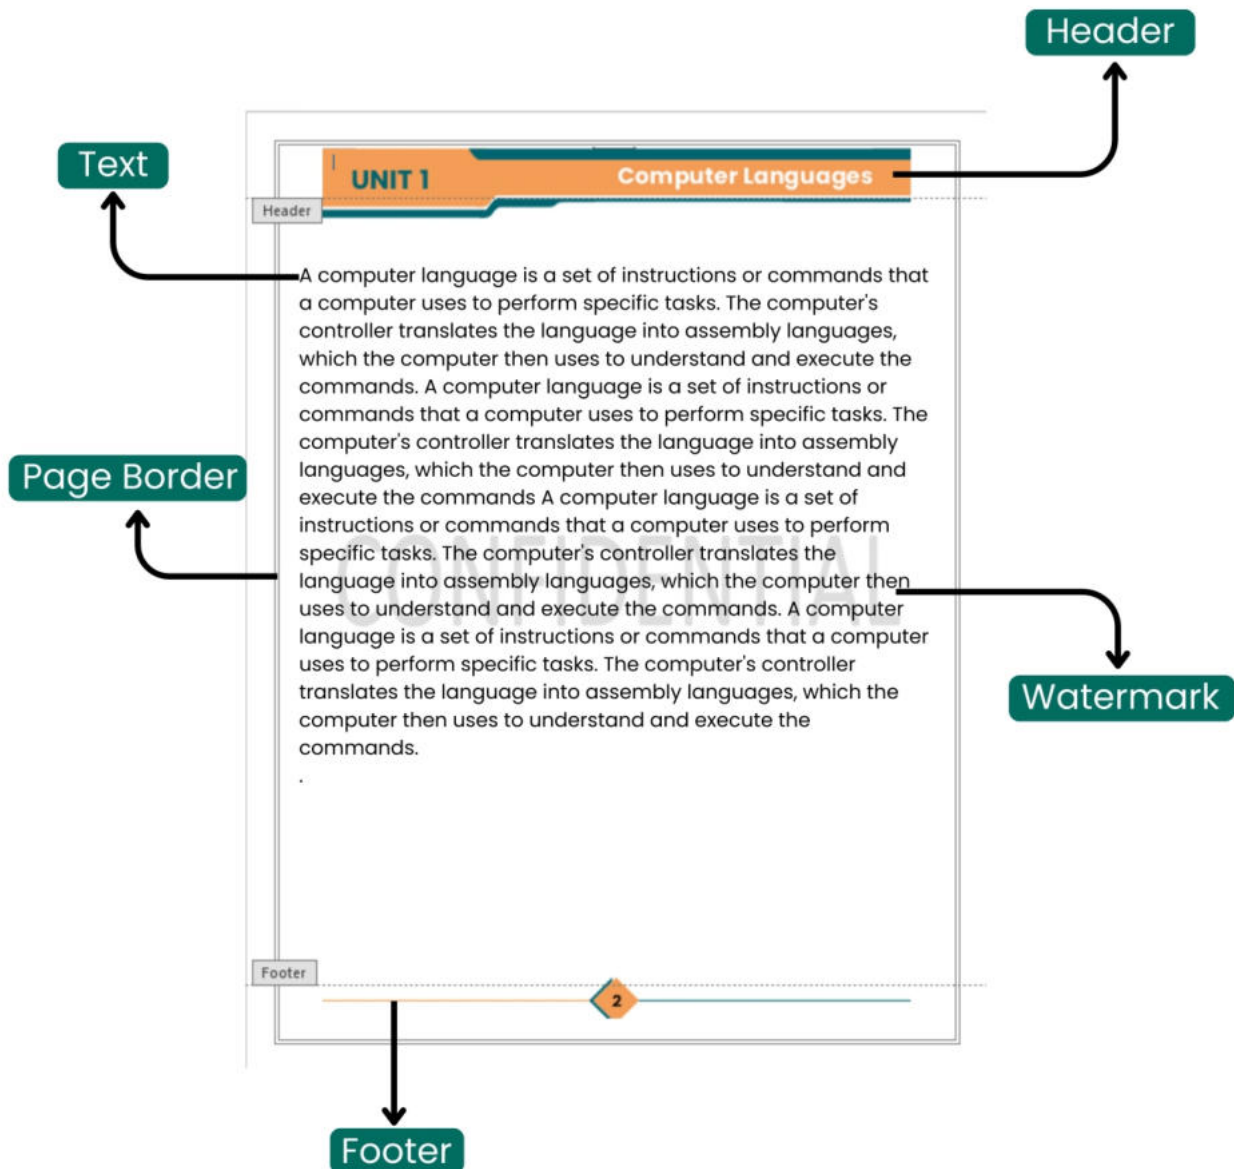

Adding Page Borders

Page borders frame your document, adding a polished look.

1. Go to the **Design** tab.
2. Click on **Page Borders**.
3. In the **Borders and Shading** dialog box, choose a style, colour, and width for the border.
4. Click **OK** to apply the border to your document.

Borders give your document a finished appearance and make it look more visually appealing.

EXERCISES

01: Choose the correct answer.

1. Where can you find the option to add a table in MS Word?

- a) Design tab
- b) Insert tab
- c) Home tab
- d) Layout tab

2. What is the purpose of a watermark in a document?

- a) To add text to the header
- b) To provide background text or an image
- c) To create a table
- d) To change font size

3. Which tool would you use to add a list with numbers?

- a) Bullet tool
- b) Numbering tool
- c) Table tool
- d) Border tool

4. Where do you go to add a page border?

- a) Insert tab
- b) Home tab
- c) Design tab
- d) Layout tab

5. Which feature can add information at the bottom of every page?

- a) Header
- b) Footer
- c) Watermark
- d) Table

02: Fill in the blanks.

1. The shortcut key to add a bullet list is _____.
2. The area at the top of each page in a document is called the _____.
3. A faint background image or text that appears on every page is called a _____.
4. To merge cells in a table, select the cells and choose _____ Cells.
5. A _____ frames the entire page and makes the document look more polished.

03: Write True or False for each statement.

	TRUE	FALSE
Watermarks appear only on the first page of a document.	☐	☐
You can align text within a table cell in MS Word.	☐	☐
Headers are used only at the end of a document.	☐	☐
A page border can be added from the Design tab.	☐	☐
The bullet tool is used to create numbered lists.	☐	☐

1. What is a header used for in a document?
2. How do you merge cells in a table in MS Word?
3. Explain the purpose of a watermark.
4. Describe how to add a page border in MS Word.
5. Why would you use a footer in a document?

[illegible]

[illegible]

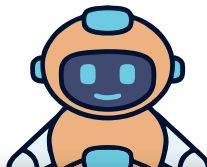

05: Match the columns.

Column A
Header
Table
Page Border
Watermark
Bullet List

Column B
Background text or image
Frames the document
Information on each page
Organizes data in rows
Highlights important points

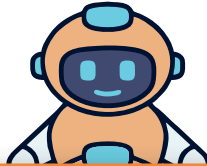

LAB ACTIVITIES

Lab Activity 1: Making a Bulleted and Numbered List

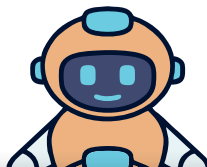

- Create a list of five school supplies you need, using bullets to organize each item.
- Then, create a numbered list of the steps you take to prepare for school each morning.

Lab Activity 2: Creating and Formatting a Table

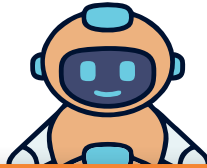

- Create a table with 3 columns and 5 rows to display data about your favourite books, subjects, or hobbies.
- Format the table by changing its style and experimenting with text alignment.

Lab Activity 3: Adding Headers and Footers

- Insert a header with your name and the title "Class Assignment."
- Add a footer with the current date on the left and a page number on the right.

Lab Activity 4: Adding a Watermark and Page Border

- Add a “Draft” watermark to your document using the Design tab.
- Create a custom page border that complements your document's theme.

Lab Activity 5: Documenting an Event in MS Word

Utilize MS Word features to create a detailed document about "My Friend's Last Birthday Party".

Instructions:

1. Open a New Document & Write an Introduction:

- **Title:** "My Friend's Last Birthday Party."
- **Introduction:** Write a brief paragraph about the joy and excitement of celebrating a close friend's birthday.

2. Lists and Table Creation:

- Create a bulleted list of the birthday party highlights.
- Below, insert a table with 3 columns and 5 rows detailing gifts given, the food served, and the games played.
- Apply a style to the table from the "Table Design" tab and centre the text in each cell.

3. Headers, Footers, and Watermark:

- Insert a header with the event's name and your name.
- Add a footer with the current date on the left and the page number on the right.
- Place a "Celebration" watermark and add a festive page border.

4. Text Formatting:

- Use (Ctrl + B) to make bold the titles of each section.
- Italicize (Ctrl + I) important moments for emphasis.
- Underline (Ctrl + U) the key highlights in your introduction and lists.
- Save the document as "Birthday Party Review.docx" and submit according to your teacher's instructions.
