

UNIT 9

MORE ABOUT MS PAINT

Learning Objectives

- Enhance the skills of drawing.
- Use shapes tool and text tool to draw various shapes.
- Draw and colour everyday object of their choice.

UNIT 9

MORE ABOUT MS PAINT

MS Paint is a simple computer program that lets you draw and paint pictures.

You can use tools like brushes, pencils, and erasers to make your art.

You can also use it to colour shapes and add text to your pictures.

It is easy to use and fun for making different kinds of images.

You can save your drawings or set them as your computer background. MS Paint is great for kids who love to create and play with colours.

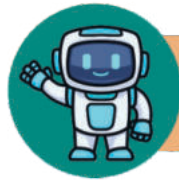

FUN FACT

MS Paint is like a digital colouring book. You can draw, colour, and create pictures using your mouse or touchpad.

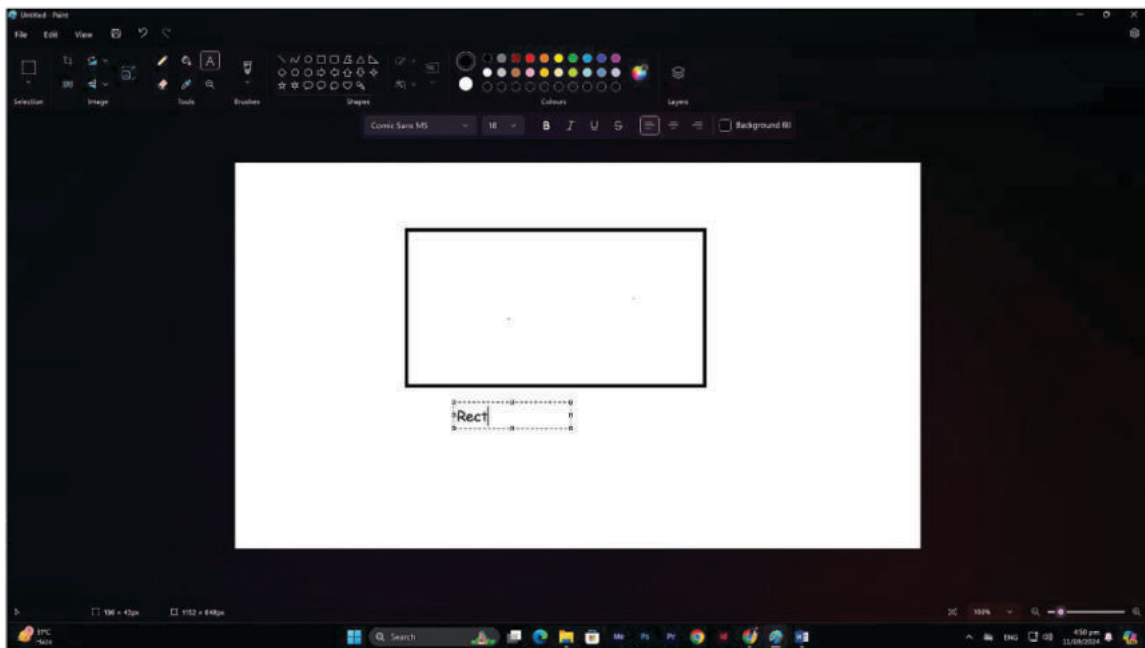

UNIT 9

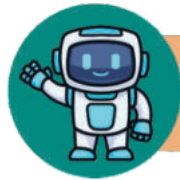

MORE ABOUT MS PAINT

ACTIVITY

UNIT 9

MORE ABOUT MS PAINT

Label the following tools of MS Paint.

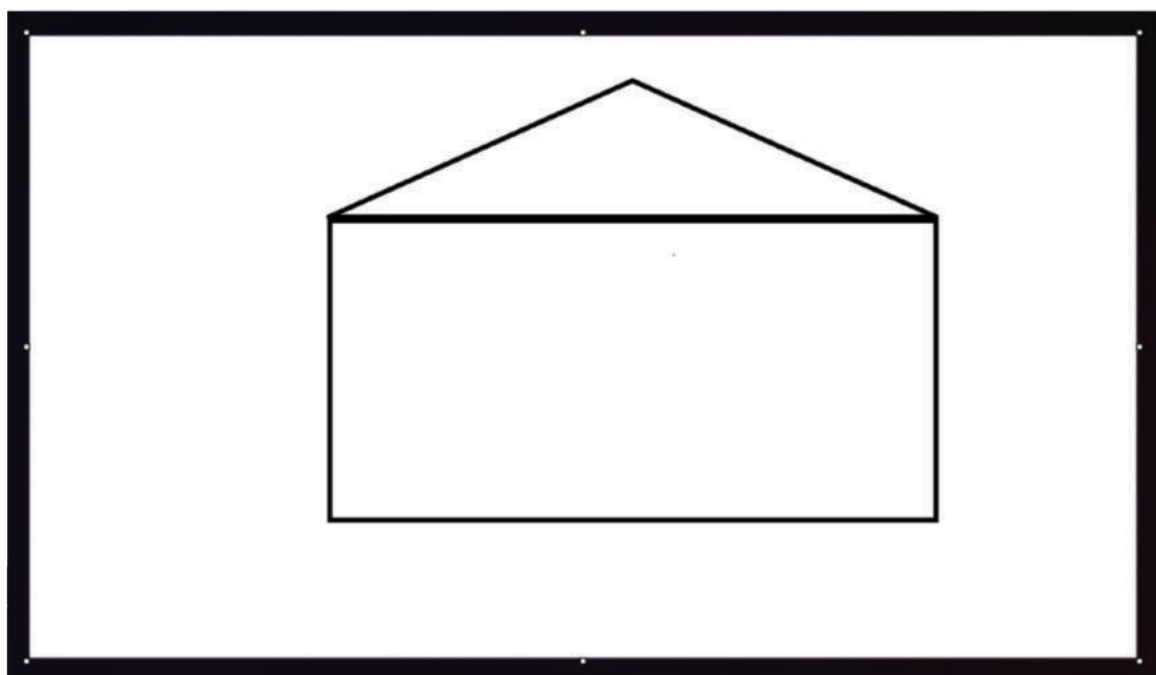

UNIT 9

MORE ABOUT MS PAINT

ACTIVITY

Students will use MS Paint to draw and colour an everyday object. They will open MS Paint, use shapes to create their object, fill it with colour, add details with the pencil or text tool, and save their work. This activity teaches basic MS Paint tools and encourages creativity.

Congratulations! You have learned how computers work and how they help us in our daily lives. From typing to using different programs, you have become a smart tech learner. Keep exploring the digital world!
