## GRAMMAR

**ACTIVE AND PASSIVE VOICE – UNDERSTANDING HOW ACTIONS ARE PRESENTED**

Hello, young learners! Today, we're diving into an exciting topic called "Active and Passive Voice." It's all about how sentences are structured to show who is doing the action and who or what is receiving the action. Let's explore this together step by step!

**ACTIVE VOICE: PUTTING THE FOCUS ON THE DOER****What is Active Voice?**

In active voice sentences, the subject is the doer of the action. It's like shining a spotlight on who or what is performing the action.

**Why Do We Use Active Voice?**

Active voice is used to emphasize the doer of the action. It makes our sentences direct and clear.

**How Does Active Voice Work?**

In active voice, the formula is:

Subject + Verb + Object

**Example:** The cat chased the mouse.

**PASSIVE VOICE: SHIFTING THE FOCUS****What is Passive Voice?**

In passive voice sentences, the focus is on the receiver of the action. It's like switching the spotlight to the one being acted upon.

**Why Do We Use Passive Voice?**

Passive voice is used when the focus is more on the action itself or when we don't know or want to emphasize the doer.

**How Does Passive Voice Work?**

In passive voice, the formula is:

Receiver of Action + Form of "to be" + Past Participle + by + Doer (optional)

**Example:** The mouse was chased by the cat.

**CHANGING ACTIVE TO PASSIVE AND VICE VERSA****Changing Active to Passive**

1. Move the object to the beginning.
2. Use the appropriate form of "to be" (is, am, are, was, were) based on the subject.
3. Add the past participle of the main verb.
4. Optionally, add "by" and mention the doer.

**Changing Passive to Active**

1. Identify the doer (if mentioned).
2. Move the doer to the subject position.
3. Use the past participle of the main verb as the main verb.
4. Rearrange the other parts to make a grammatically correct sentence.

**Formulas:**

Here's a table that shows the formulas for changing sentences from active voice to passive voice for each of the 12 tenses:

| I will write a letter tonight.         | A letter will be written by me tonight.          | آج رات میری طرف سے ایک خط لکھا جائے گا۔    |

**EXCEPTIONS****Exceptions in Active Voice:**

1. **Intransitive Verbs:** These are verbs that do not have a direct object. They cannot be transformed into passive voice because there is no object to become the subject of the passive sentence. For example, "She sleeps" is intransitive and cannot be made passive.

**Exceptions in Passive Voice:**

1. **Imperative Sentences:** Imperative sentences, which give commands, typically don't have a clear doer of the action. Therefore, they cannot be directly converted into passive voice.

**Example:** "Close the door." (imperative) – Cannot be made passive directly.

2. **Certain Verbs:** Some verbs are rarely used in passive voice due to their nature. These include verbs like "have," "lack," "possess," "seem," etc. –

**Example:** "She has a book." (active) – Rarely converted to passive.

3. **Non-Action Verbs:** Passive voice is generally used for actions, so non-action verbs like "be," "seem," "become," etc., are not commonly transformed into passive voice. –

**Example:** "She is tired." (active) – Not typically used in passive.

Remember, while these exceptions exist, understanding the general rules and patterns of active and passive voice is crucial. As you encounter more sentences and practice, you'll develop a better sense of when to apply passive voice and when to stick with active voice.

## PRACTICE MAKES PERFECT

To change a sentence from active to passive or vice versa, it's important to remember the roles of the doer and the receiver of the action. By practicing, you'll become a master at using both active and passive voice.

Remember, active voice is like telling a story from a specific point of view, while passive voice is like observing the story unfold. Both are important tools in language that allow us to communicate in different ways. Keep practicing and exploring the world of words!

## ESSAY WRITING

Essay writing is a valuable skill that allows you to express your thoughts, opinions, and ideas in a structured and coherent manner. Here's a step-by-step breakdown:

**1 CHOOSE A TOPIC**

Select a topic that interests you and is relevant to the assignment or purpose of your essay. Make sure the topic is specific enough to explore within the length of your essay.

**2 UNDERSTAND THE PURPOSE**

Determine the purpose of your essay. Are you trying to inform, persuade, narrate, or analyze? The purpose will influence your writing style and approach.

**3 PLAN AND ORGANIZE**

Organize your thoughts before you start writing. Create an outline that includes an introduction, main points or arguments, and a conclusion. This will give your essay a clear structure.

**4 INTRODUCTION**

Start your essay with an engaging introduction that provides context for your topic and presents your thesis statement. The thesis statement is a concise summary of the main point or argument of your essay.

**5 BODY PARAGRAPHS**

Each body paragraph should focus on a single main point or argument. Begin with a topic sentence that introduces the main idea of the paragraph. Then, provide evidence, examples, or explanations to support your point. Use clear and logical transitions between paragraphs.

**6 SUPPORTING EVIDENCE**

Support your arguments with relevant evidence, such as facts, statistics, anecdotes, expert opinions, or quotes from credible sources. Make sure to properly cite your sources if necessary.

**7 COHERENCE AND UNITY**

Ensure that each paragraph contributes to the overall theme of the essay and maintains a logical flow. Your essay should have a cohesive structure that guides the reader through your ideas.

**8 CONCLUSION**

Summarize the main points of your essay in the conclusion and restate your thesis in a new way. Avoid introducing new information here. Leave your reader with a thought-provoking closing statement.

**9 REVISE AND EDIT**

Once you've completed your first draft, take a break before revising. Read your essay aloud to identify any awkward sentences or errors. Check for clarity, grammar, spelling, and punctuation mistakes.

**TO FINALIZE**

After revising, make necessary corrections and ensure that your essay is polished and well presented. Consider the formatting guidelines (font, spacing, margins) specified by your instructor or publication.

**TIPS FOR EFFECTIVE ESSAY WRITING**

**Be Clear and Concise:** Use clear language and avoid unnecessary jargon. Aim for clarity in your ideas.

**Vary Sentence Structure:** Use a mix of sentence lengths and structures to keep your writing engaging.

**Stay on Topic:** Make sure every paragraph and sentence contribute to the central theme of your essay.

**Read Widely:** Exposure to various writing styles and genres will enhance your writing skills.

**Edit and Proofread:** Careful editing and proofreading are essential for producing a polished final draft.

**Practice:** Writing is a skill that improves with practice. Write regularly to refine your technique.

Remember, essay writing is about expressing your unique perspective while effectively communicating your ideas to your audience. With practice and attention to detail, you'll become a skilled essay writer.

**IMPORTANT ESSAYS****THE IMPORTANCE OF EDUCATION**

Education is a remarkable journey that enriches our lives in numerous ways. It serves as a powerful tool for personal growth, a gateway to knowledge, and a driving force behind societal progress. As we embark on this path of learning, we not only expand our horizons but also contribute to the betterment of our communities.

Education empowers individuals by providing them with the skills and knowledge needed to navigate the complexities of the modern world. Through formal education, we gain a deep understanding of various subjects, develop critical thinking abilities, and hone problem-solving skills. Moreover, education nurtures our creativity, fostering innovative ideas that have the potential to reshape our society.

On a broader scale, education plays a pivotal role in shaping the destiny of nations. Educated societies are more equipped to address societal challenges, make informed decisions, and cultivate an environment of tolerance and understanding. Education fosters a sense of responsibility towards the environment, encouraging sustainable practices and contributing to the well-being of our planet.

Furthermore, education is a beacon of hope for socio-economic advancement. It empowers individuals to pursue careers that align with their passions and talents,

thereby improving their quality of life and contributing to economic growth. Education also serves as a catalyst for social mobility, breaking the cycle of poverty and providing equal opportunities for all.

In conclusion, education is not merely a process of acquiring information; it is a journey that transforms lives and shapes the destiny of nations. It equips individuals with the tools to excel personally and professionally, while also nurturing the values of empathy, curiosity, and respect. By recognizing the profound significance of education, we can work collectively to build a brighter and more prosperous future for ourselves and generations to come.

## **THE IMPACT OF SOCIAL MEDIA ON MODERN SOCIETY**

In the digital age, the emergence of social media platforms has revolutionized how we communicate, share information, and connect with others. Social media has become an integral part of modern society, influencing various aspects of our lives. While it brings undeniable benefits, it also poses challenges that warrant thoughtful consideration.

One of the positive aspects of social media is its role in fostering global connections. People from different corners of the world can interact, exchange ideas, and build relationships like never before. It has democratized information dissemination, allowing individuals to express their opinions and advocate for social causes on a larger scale.

However, the impact of social media isn't devoid of drawbacks. One notable concern is the potential for the spread of misinformation and fake news. The rapid sharing of unverified content can contribute to the distortion of facts, leading to misunderstandings and confusion. Additionally, excessive use of social media has been linked to issues such as cyberbullying, online harassment, and negative impacts on mental health due to constant comparison and unrealistic portrayals of life.

Another noteworthy aspect is the influence of social media on personal privacy. With the abundance of personal data shared online, the boundaries between public and private spheres can become blurred. Safeguarding personal information in the digital realm has become a crucial concern.

In conclusion, social media has redefined how we connect, communicate, and engage with the world around us. While it offers opportunities for global interaction and activism, it also brings about challenges related to misinformation, privacy, and mental health. It is imperative for individuals to use social media responsibly, critically evaluate the information they encounter, and strike a balance between virtual and real-life interactions. As society continues to navigate the evolving landscape of social media, a collective effort is required to harness its potential for positive change while addressing its pitfalls.

## **THE IMPERATIVE OF ENVIRONMENTAL CONSERVATION**

In a world facing increasing environmental challenges, the concept of conservation has taken center stage as a crucial endeavor for the well-being of our planet and future generations. Environmental conservation encompasses a range of efforts aimed at preserving and protecting the Earth's natural resources, ecosystems, and biodiversity. As

we witness the consequences of environmental degradation, the importance of conservation becomes ever more evident.

One of the primary reasons for environmental conservation is to maintain the delicate balance of ecosystems. Biodiversity, the variety of life forms on Earth, plays a vital role in ecosystem resilience and stability. Conserving diverse species and habitats ensures that ecosystems can withstand natural and human-induced changes, contributing to a healthier planet.

Conservation also supports sustainable resource management. Our dependence on resources like water, forests, and minerals necessitates their responsible use and preservation. By practicing sustainable forestry, efficient water management, and responsible extraction of minerals, we can meet our needs without jeopardizing the planet's capacity to support future generations.

Furthermore, environmental conservation is essential for combating climate change. Protecting forests, wetlands, and other carbon-absorbing ecosystems helps mitigate the impact of greenhouse gas emissions. Conservation also involves advocating for clean energy alternatives and reducing our carbon footprint, addressing one of the most pressing global challenges.

Education and awareness are integral aspects of conservation. By educating communities about the value of their natural surroundings and the repercussions of environmental degradation, we can foster a sense of stewardship and encourage positive behaviors that support conservation efforts.

In conclusion, environmental conservation is not merely an option but a responsibility we owe to our planet and the generations to come. Through sustainable resource management, preserving biodiversity, and advocating for climate action, we can create a more sustainable and harmonious coexistence with nature. Every individual's contribution, no matter how small, plays a part in the collective effort to protect and conserve our environment. It is a call to action for a better future and a healthier planet.

## LETTER WRITING

Letter writing is a valuable skill that allows you to communicate effectively, whether for personal, professional, or formal purposes. Here's a step-by-step guide to help you master the art of letter writing:

**1 CHOOSE THE TYPE OF LETTER**

Decide on the type of letter you're writing. It could be a formal letter, informal letter, business letter, cover letter, thank-you letter, or a letter of recommendation.

**2 FORMAT**

Regardless of the type, most letters have a similar format:

**Sender's Address:** Include your name, address, and contact information at the top of the letter. If it's a formal letter, your address should be aligned to the right; for informal letters, it can be aligned to the left.

**Date:** Below your address, write the date. Use a full date format (e.g., August 14, 2024).

**Recipient's Address:** Include the recipient's name, title (if applicable), organization, and address. If you know the name, address the recipient by their name.

**3 SALUTATION**

Begin the letter with a salutation. In formal letters, use "Dear [Title] [Last Name]" (e.g., Dear Mr. Ali). In informal letters, you can use the person's first name (e.g., Dear Ahmed).

**4 BODY OF THE LETTER**

The body of the letter is where you communicate your message. Be clear and concise. Organize your thoughts into paragraphs, each focusing on a different point. Make sure to maintain a polite and respectful tone.

**5 CLOSING**

Conclude the letter with an appropriate closing. For formal letters, use "Yours sincerely" or "Yours faithfully" depending on your familiarity with the recipient. For informal letters, you can use closings like "Best regards," "Sincerely," or "Take care."

**6 SIGNATURE**

Leave space for your handwritten signature above your typed name. If you're sending an electronic letter, you can type your name and leave space for your digital signature.

**7 POSTSCRIPT (P.S.)**

An optional addition after the signature, the postscript is used to add something you forgot to mention in the main body of the letter.

**TIPS FOR EFFECTIVE LETTER WRITING**

**Clarity:** Clearly state the purpose of your letter. Avoid using jargon or overly complex language.

**Conciseness:** Keep your letter concise. Get to the point while providing necessary details.

**Politeness:** Use a polite and respectful tone, regardless of the type of letter.

**Grammar and Spelling:** Proofread your letter for grammar and spelling errors before sending it.

**Addressing Concerns:** If you're addressing a concern, be specific and provide any necessary supporting information.

**Formatting:** Pay attention to formatting, alignment, and font choices to ensure your letter looks professional.

**Personal Touch:** For personal or informal letters, add a personal touch that makes the recipient feel valued.

Remember, effective letter writing is about clear communication and appropriate tone. Whether you're writing to a friend, a potential employer, or an organization, tailor your language and content to suit the purpose of the letter.

**Dear Sarah,**

I hope this letter finds you well. It's been ages since we last caught up, and I've been missing our chats and laughter.

Life has been quite a whirlwind on my end. I recently started a new job at XYZ Tech, and it's been both exciting and challenging. The team is great, and I'm diving into some interesting projects.

Remember that hiking trip we had planned? Let's finally make it happen! I could use a dose of nature and adventure. Maybe we can plan it for next month? Let me know if that works for you.

By the way, have you seen the latest movie that everyone's talking about? I heard it's a must-watch. Let's plan a movie night soon and catch up on all the films we've missed.

Looking forward to hearing from you and hopefully making some fun plans. Take care and talk soon!

Warm regards,  
Emily

**Dear Lily,**

I just wanted to take a moment to say a big thank you for the wonderful birthday surprise you organized! I was genuinely surprised and touched by the effort you put into making my day special.

The decorations, the cake, and the thoughtful gifts were all incredible. But the best part was spending time with you and our close friends. Your presence truly made my day memorable.

I'm grateful to have you in my life. Thank you again for the amazing birthday celebration!

Warmest wishes,  
Daniel

## IMPORTANT TERMS TO UNDERSTAND BEFORE LEARNING TENSES

Hello young learners! Before we dive deeper into tenses, there are a few important terms we should know. These are like the building blocks that help us create sentences correctly. Let's explore them together!

### VERB: THE ACTION STAR

#### What is a Verb?

A verb is like the action star in a sentence. It's the word that tells us what action is happening. Whether we're running, jumping, reading, or singing, verbs are at the heart of every action we do.

#### Why are Verbs Important?

Verbs are the key to understanding when something happened. They help us travel through time with tenses.

### FORMS OF VERBS: THE SHAPE CHANGERS

#### What are Forms of Verbs?

Verbs can change their forms based on when the action is happening. They have three main forms: the base form, the past tense form, and the past participle form.

#### Why Do Verbs Have Different Forms?

Changing the form of a verb helps us fit it into the right tense and makes our sentences clear and accurate.

### HELPING VERBS: THE TIME TRAVEL GUIDES

#### What are Helping Verbs?

Helping verbs, also called auxiliary verbs, work together with main verbs to create different tenses. They help us understand the timing of actions.

#### Why Do We Need Helping Verbs?

Helping verbs give us clues about whether an action happened in the past, is happening right now, or will happen in the future.

#### Examples of Helping Verbs:

**For past tense:** "I **was** reading."

**For present tense:** "She **is** singing."

**For future tense:** "They **will** play."

### DIRECT OBJECT: THE RECEIVER OF ACTION

#### What is a Direct Object?

The direct object is the thing or person that receives the action of the verb. It answers the question "what" or "whom."

#### Why Do We Need Direct Objects?

Understanding direct objects helps us create more detailed and complete sentences.

**INDIRECT OBJECT: THE EXTRA HELPER****What is an Indirect Object?**

The indirect object is the person or thing that benefits from the action. It's like an extra helper in the sentence.

**Why Do We Need Indirect Objects?**

Indirect objects add depth to our sentences, showing who benefits from the action.

So, dear students, understanding these terms is like having a special toolbox for building sentences correctly. Verbs, forms, helping verbs, and the other players in this language game help us communicate accurately. Let's keep exploring and learning!

**TOPIC: TENSES – UNDERSTANDING HOW ACTIONS FIT INTO TIME**

Hello again, students! Today, we're diving into a topic called "Tenses." Tenses help us talk about when something happened. It's like a time machine for our words, helping us understand if an action is in the past, happening right now, or going to happen in the future. Let's jump right in!

Tenses are divided into three main categories:

1. Past
2. Present
3. Future

**PAST TENSE: TALKING ABOUT THE PAST****What is Past Tense?**

Past tense is used to talk about things that have already happened. It's like looking back in time.

**Why Do We Use Past Tense?**

We use past tense when we want to tell stories about things that occurred before this moment. It helps us share our memories and understand events from the past.

**How Do We Form Past Tense?**

There are four types of past tense:

**1. Simple Past Tense:** We add "-ed" to regular verbs. For example, "play" becomes "played."

**Example:** She walked to the park.

**2. Past Continuous Tense:** We use "was" or "were" plus the base form of the verb and add "ing."

**Example:** They were playing in the garden.

**3. Past Perfect Tense:** We use "had" plus the past participle form of the verb.

**Example:** He had already eaten when I arrived.

**4. Past Perfect Continuous Tense:** We use "had been" plus the base form of the verb and "ing."

**Example:** She had been studying for hours.

**PRESENT TENSE: EXPLORING THE NOW****What is Present Tense?**

Present tense helps us talk about what's happening right now. It's like looking at things as they're occurring.

**Why Do We Use Present Tense?**

We use present tense to talk about actions that are ongoing or general truths.

**How Do We Form Present Tense?**

**1. Simple Present Tense:** We use the base form of the verb. For example, "eat."

**Example:** They eat lunch every day.

**2. Present Continuous Tense:** We use "am," "is," or "are" plus the base form of the verb and add "-ing."

**Example:** She is reading a book now.

**FUTURE TENSE: PEEKING INTO WHAT'S AHEAD****What is Future Tense?**

Future tense helps us talk about what will happen in the time that comes after now.

**Why Do We Use Future Tense?**

We use future tense when we want to discuss plans, predictions, or actions that will take place.

**How Do We Form Future Tense?**

**1. Simple Future Tense:** We use "will" plus the base form of the verb.

**Example:** I will visit my grandparents.

**2. Future Continuous Tense:** We use "will be" plus the base form of the verb and "-ing."

**Example:** They will be playing soccer tomorrow.

**3. Future Perfect Tense:** We use "will have" plus the past participle form of the verb.

**Example:** She will have finished her homework by then.

**4. Future Perfect Continuous Tense:** We use "will have been" plus the base form of the verb and "-ing."

**Example:** By next week, they will have been studying for a month.

So, dear students, tenses are like time-traveling words that help us fit actions into the right time slot. By understanding past, present, and future tenses, you're becoming language time travelers! Keep practicing and soon you'll master the art of talking about time.

## EXCEPTIONS

There are some exceptions that exist within tenses. While the explanation above covers the basics of tenses, it's important to note that English language can be tricky sometimes. Here are a few exceptions you might encounter:

## PAST TENSE EXCEPTIONS

**1. Irregular Verbs:** Some verbs don't follow the regular "-ed" pattern in the past tense. For example, "go" becomes "went," not "goed."

**Example:** He **went** to the store yesterday.

## Irregular Verbs

| Infinitive (Base Form) | Past Simple | Past Participle | Present Participle (-ing) |
|------------------------|-------------|-----------------|---------------------------|
| be                     | was/were    | been            | being                     |
| become                 | became      | become          | becoming                  |
| begin                  | began       | begun           | beginning                 |
| break                  | broke       | broken          | breaking                  |
| bring                  | brought     | brought         | bringing                  |
| buy                    | bought      | bought          | buying                    |
| choose                 | chose       | chosen          | choosing                  |
| come                   | came        | come            | coming                    |
| do                     | did         | done            | doing                     |
| eat                    | ate         | eaten           | eating                    |
| find                   | found       | found           | finding                   |
| get                    | got         | got/gotten      | getting                   |
| go                     | went        | gone            | going                     |
| have                   | had         | had             | having                    |
| make                   | made        | made            | making                    |
| read                   | read        | read            | reading                   |
| run                    | ran         | run             | running                   |
| say                    | said        | said            | saying                    |
| see                    | saw         | seen            | seeing                    |
| take                   | took        | taken           | taking                    |
| write                  | wrote       | written         | writing                   |

Remember, irregular verbs don't follow the regular pattern of adding "-ed" to form the past tense or past participle. They have their own unique forms, so it's important to learn them by heart. Practice using them in sentences to become more comfortable with these irregular forms.

**2. Changing Spelling:** Some verbs change their spelling when forming the past tense. For instance, "run" becomes "ran."

**Example:** She **ran** in the race.

### PRESENT TENSE EXCEPTIONS

**1. Third-Person Singular:** When using the simple present tense with he, she, or it, we often add "s" or "es" to the verb.

**Example:** He **eats** breakfast every morning.

**2. Irregular Verbs:** Just like in the past tense, some verbs don't follow the regular rules in the present tense either.

**Example:** They **have** a pet dog.

| Tense                      | Formula                              | Example                                   | Translation in Urdu                      |
|----------------------------|--------------------------------------|-------------------------------------------|------------------------------------------|
| Simple Present             | Base Verb (with 's' for he, she, it) | She eats breakfast every morning.         | وہ ہر صبح ناشتہ کھاتی ہے                 |
| Present Continuous         | Am/Is/Are + Base Verb + -ing         | They are playing in the park.             | وہ پارک میں کھیل رہے ہیں                 |
| Present Perfect            | Have/Has + Past Participle           | He has visited that museum before.        | اس نے اس میوزیم کا دورہ پہلے ہی کیا ہے   |
| Present Perfect Continuous | Have/Has Been + Base Verb + -ing     | She has been studying for hours.          | وہ گھنٹوں سے پڑھ رہی ہے                  |
| Simple Past                | Base Verb + -ed                      | They played soccer yesterday.             | کل وہ فٹبال کھیلے                        |
| Past Continuous            | Was/Were + Base Verb + -ing          | She was reading when I called her.        | میں نے جب اسے کال کی تھی، وہ پڑھ رہی تھی |
| Past Perfect               | Had + Past Participle                | He had already eaten when I arrived.      | میں آنے پر اس نے پہلے ہی کھا لیا تھا     |
| Past Perfect Continuous    | Had Been + Base Verb + -ing          | They had been playing for hours.          | وہ گھنٹوں سے کھیل رہے تھے                |
| Simple Future              | Will + Base Verb                     | She will travel around the world.         | وہ دنیا کے چاروں کونوں میں سفر کرے گی    |
| Future Continuous          | Will Be + Base Verb + -ing           | They will be singing at the concert.      | وہ کنسرٹ میں گانا گا رہے ہوں گے          |
| Future Perfect             | Will Have + Past Participle          | I will have finished my homework.         | میں اپنا ہوم ورک ختم کر چکا ہوں گا       |
| Future Perfect Continuous  | Will Have Been + Base Verb + -ing    | They will have been studying for a while. | وہ کچھ وقت سے پڑھ رہے ہوں گے             |

### FUTURE TENSE EXCEPTIONS

**1. Using "Going to":** Sometimes, instead of using "will," we use "going to" to talk about future plans and intentions.

**Example:** I am **going to travel** next summer.

**2. Future with Present Continuous:** We can also use the present continuous tense to talk about future arrangements.

**Example:** We **are meeting** at the park tomorrow.

Remember, while these exceptions might make things a bit more complex, practicing and encountering them in context will help you understand and use them correctly.

Language is full of surprises, but with practice, you'll become a pro at navigating through these exceptions!

## DIRECT AND INDIRECT SPEECH (NARRATION) – EXPRESSING WHAT SOMEONE SAID

Hello, young learners! Today, we're going to explore a fascinating aspect of language called "Direct and Indirect Speech," also known as narration. It's all about how we convey what someone else has said. Let's journey into the world of reported speech step by step!

### DIRECT SPEECH: QUOTING THE EXACT WORDS

#### What is Direct Speech?

Direct speech is like quoting someone's exact words. It's when we repeat what someone has said, using quotation marks.

#### Why Do We Use Direct Speech?

Direct speech helps us share exactly what someone said and adds authenticity to our storytelling.

#### How Does Direct Speech Work?

In direct speech, we keep the speaker's original words as they are:

- ▶ Use quotation marks.
- ▶ Keep the tense and pronouns the same.

**Example:** She said, "I love playing the piano."

### INDIRECT SPEECH: REPORTING WHAT WAS SAID

#### What is Indirect Speech?

Indirect speech is like reporting what someone said without using their exact words. It's like telling the gist of their statement.

#### Why Do We Use Indirect Speech?

Indirect speech is used to summarize what someone said in our own words and to fit it into our sentence structure.

#### How Does Indirect Speech Work?

In indirect speech, we often change the tense and pronouns:

- ▶ Remove the quotation marks.
- ▶ Change the tense to match the reporting time.
- ▶ Adjust pronouns if necessary.

**Example:** She said that she loved playing the piano.

**CHANGING DIRECT TO INDIRECT SPEECH**

1. Change the pronouns if needed.
2. Change the verb tense to match the reporting time.
3. Remove the quotation marks.
4. Add a reporting verb like "said" or "told."
5. Optionally, change time expressions like "today" or "yesterday."

**CHANGING INDIRECT TO DIRECT SPEECH**

1. Keep the original speaker's words.
2. Use quotation marks.
3. Change the pronouns if needed.
4. Adjust the tense to match the original speech.
5. Remove the reporting verb like "said" or "told."

Certainly! Here's a table summarizing the formulas used in the topic of Direct and Indirect Speech:

| Concept          | Direct Speech Formula       | Indirect Speech Formula                   |
|------------------|-----------------------------|-------------------------------------------|
| Quoting Words    | Use quotation marks.        | Remove quotation marks.                   |
| Tense            | Keep the tense the same.    | Change the tense to match reporting time. |
| Pronouns         | Keep the pronouns the same. | Change pronouns if needed.                |
| Reporting Verb   | No need for reporting verb. | Add reporting verb like "said" or "told". |
| Time Expressions | No change needed.           | Optionally, adjust time expressions.      |

Using these formulas, you can easily convert between direct and indirect speech, allowing you to express what someone else said in a clear and accurate way.

Here's a table illustrating sentences in direct speech for each of the 12 tenses, along with their indirect speech conversions:

| Concept                    | Direct Speech Sentence                 | Indirect Speech Conversion                   |
|----------------------------|----------------------------------------|----------------------------------------------|
| Simple Present             | He says, "I play football."            | He says that he plays football.              |
| Present Continuous         | She says, "I am reading a book."       | She says that she is reading a book.         |
| Present Perfect            | They say, "We have finished our work." | They say that they have finished their work. |
| Present Perfect Continuous | I say, "I have been studying."         | I say that I have been studying.             |
| Simple Past                | He said, "I visited the museum."       | He said that he visited the museum.          |
| Past Continuous            | She said, "I was cooking dinner."      | She said that she was cooking dinner.        |
| Past Perfect               | They said, "We had already eaten."     | They said that they had already eaten.       |
| Past Perfect Continuous    | I said, "I had been working."          | I said that I had been working.              |
| Simple Future              | He will say, "I will help you."        | He will say that he will help you.           |

| Future Perfect Continuous | I will say, "I will have been reading." | I will say that I will have been reading.   |

This table should help you understand how sentences change from direct to indirect speech across various tenses. Practice converting sentences to enhance your grasp of direct and indirect speech.

## EXCEPTIONS

**1. Present Simple Third Person Singular:** In the present simple tense, when the subject is a singular third person (he, she, it), the verb takes an "-s" ending.

**Example:** She **plays** the piano.

**2. Irregular Verbs:** Some verbs have irregular forms for their past tense and past participle, which don't follow the regular "-ed" pattern.

**Example:** go (base form) -> went (past tense) -> gone (past participle)

**3. Present Continuous for Future:** While the present continuous tense mainly indicates ongoing actions, it can also be used to talk about future arrangements or plans.

**Example:** We **are having** a party tomorrow.

**4. Present Perfect Continuous for Emphasis:** Although the present perfect continuous is generally used for actions that started in the past and continue to the present, it can also emphasize the duration of an action.

**Example:** She **has been working** all night.

**5. Non-Action Verbs in Continuous Tenses:** Non-action verbs (also called stative verbs) usually don't appear in continuous tenses because they describe a state rather than an action.

**Example:** I **am liking** this book. (Incorrect) -> I **like** this book. (Correct)

**6. Double Past in Reported Speech:** When reporting something that was said in the past, the reporting verb may be in the past tense, and this doesn't necessarily indicate a change of tense.

**Example:** He said, "I saw her yesterday." -> He said that he **had seen** her the day before.

**7. No Future in Indirect Questions:** When reporting questions indirectly, we don't use the future tense in the reported speech.

**Example:** Direct: She asked, "Will you come?" -> Indirect: She asked if I **would** come.

Remember that English, like any language, has its intricacies and exceptions. Becoming familiar with these exceptions will help you navigate more complex sentence structures and conversations.

## PRACTICE MAKES PERFECT

Converting direct to indirect speech and vice versa might seem tricky, but with practice, you'll master this skill. It's like adding another layer to your language toolbox, allowing you to share what others say in different ways.

## STRUCTURE OF A SENTENCE – BUILDING BLOCKS OF COMMUNICATION

Hello, young learners! Today, we're diving into the fascinating world of sentence structure. Just like building with blocks, sentences have their own structure that helps us communicate clearly. Let's explore the different parts of a sentence step by step!

### SUBJECT: THE STAR OF THE SHOW

#### What is a Subject?

A subject is like the main character of a sentence. It's the person, place, thing, or idea that the sentence is about.

#### Why Do We Need a Subject?

The subject helps us understand who or what is doing the action in a sentence.

### PREDICATE: THE ACTION OR INFORMATION

#### What is a Predicate?

The predicate is the action part of a sentence. It tells us what the subject is doing or provides more information about it.

**Why Do We Need a Predicate?**

The predicate helps complete the sentence by giving us the action or details about the subject.

**VERB: THE ACTION STAR****What is a Verb?**

A verb is like the heartbeat of the sentence. It's the action or state of being that the subject does.

**Why Do We Need a Verb?**

Without a verb, a sentence wouldn't have any action or meaning.

**OBJECT: THE RECEIVER OF ACTION****What is an Object?**

An object is the thing or person that receives the action of the verb. It answers the question "what" or "whom."

**Why Do We Need an Object?**

Objects help us understand the complete action by showing what the subject is interacting with.

**MODIFIERS: ADDING DESCRIPTIVE DETAILS****What are Modifiers?**

Modifiers are words that add more information about the subject or the action. They help paint a clearer picture.

**Why Do We Need Modifiers?**

Modifiers make our sentences richer and more interesting by giving us details.

So, dear students, understanding the structure of a sentence is like putting together a puzzle. Subjects, predicates, verbs, objects, and modifiers are the pieces that help us create meaningful and engaging sentences. Let's keep exploring and building strong sentences!
