Keyboard

Printer

Speakers

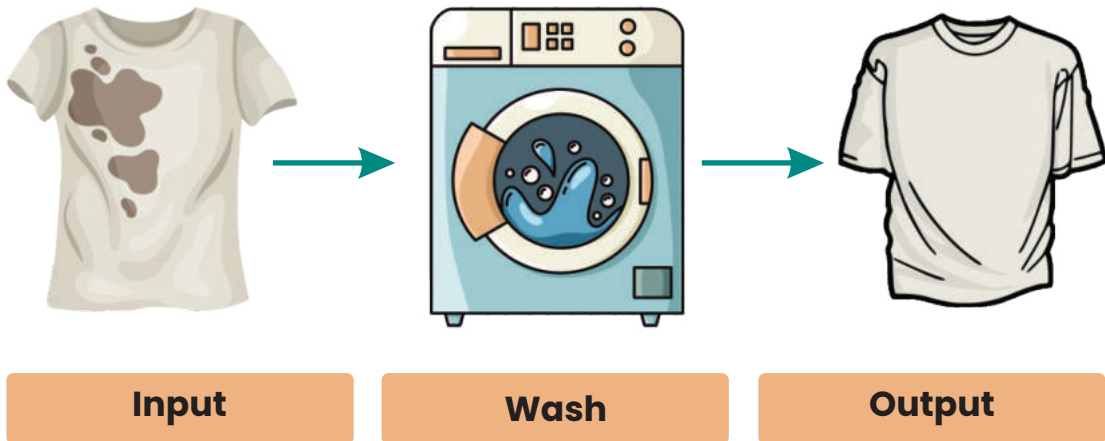

UNIT 2

COMPUTER FUNDAMENTALS

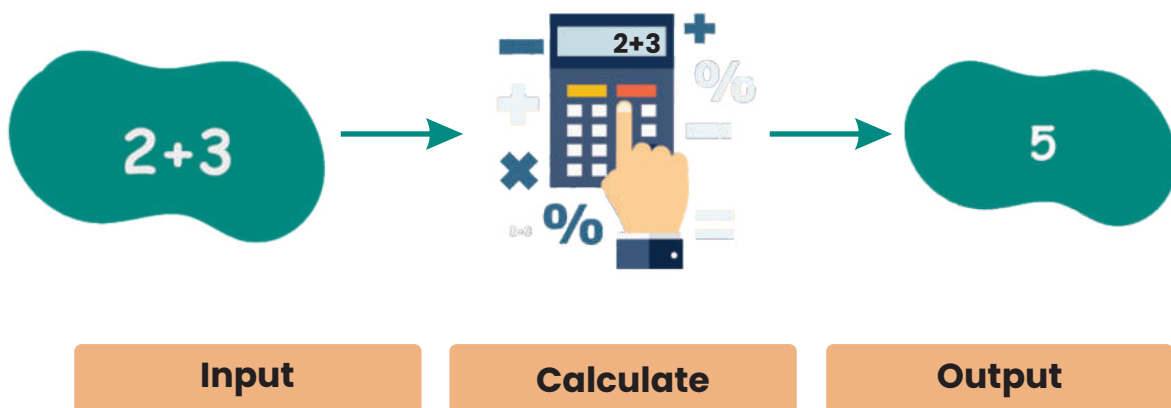

HOW DO ELECTRONIC MACHINES WORK?

A washing machine takes a dirty t-shirt, washes it and gives us a clean one.

A calculator takes two numbers, add them and gives us the result.

UNIT 2

COMPUTER FUNDAMENTALS

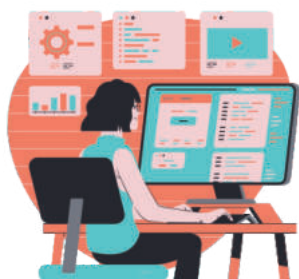

HOW DO COMPUTERS WORK?

Computers take in data (input), work it out (process) and produce information (output).

USES OF A COMPUTER

A computer is a useful machine that helps us in many ways. We can use it to write, draw, learn, play, and communicate with others. Here are some common uses of a computer:

To type documents

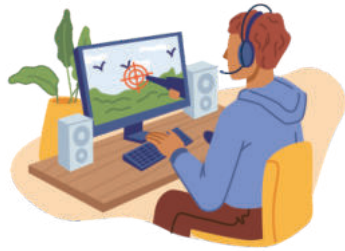

to draw

UNIT 2

COMPUTER FUNDAMENTALS

To play games

to learn online

to send an email

to chat

COMPUTERS IN DAILY LIFE

Computers are important tools we use every day. They help us learn, work, and even improve health care. Here are some places where computers are used:

Education

Medical services

Offices

Scientific Research

SOME ADVANTAGES OF USING COMPUTERS

1) Faster

Computers enable faster communication, like sending emails, compared to traditional mail.

2) Audio & Visuals

Computers support video calls and online meetings, allowing visual and audio interaction.

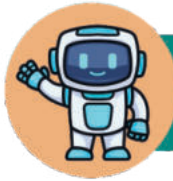

UNIT 2

COMPUTER FUNDAMENTALS

3) Less paper work

Digital documents reduce the need for paper, making processes more environmentally friendly.

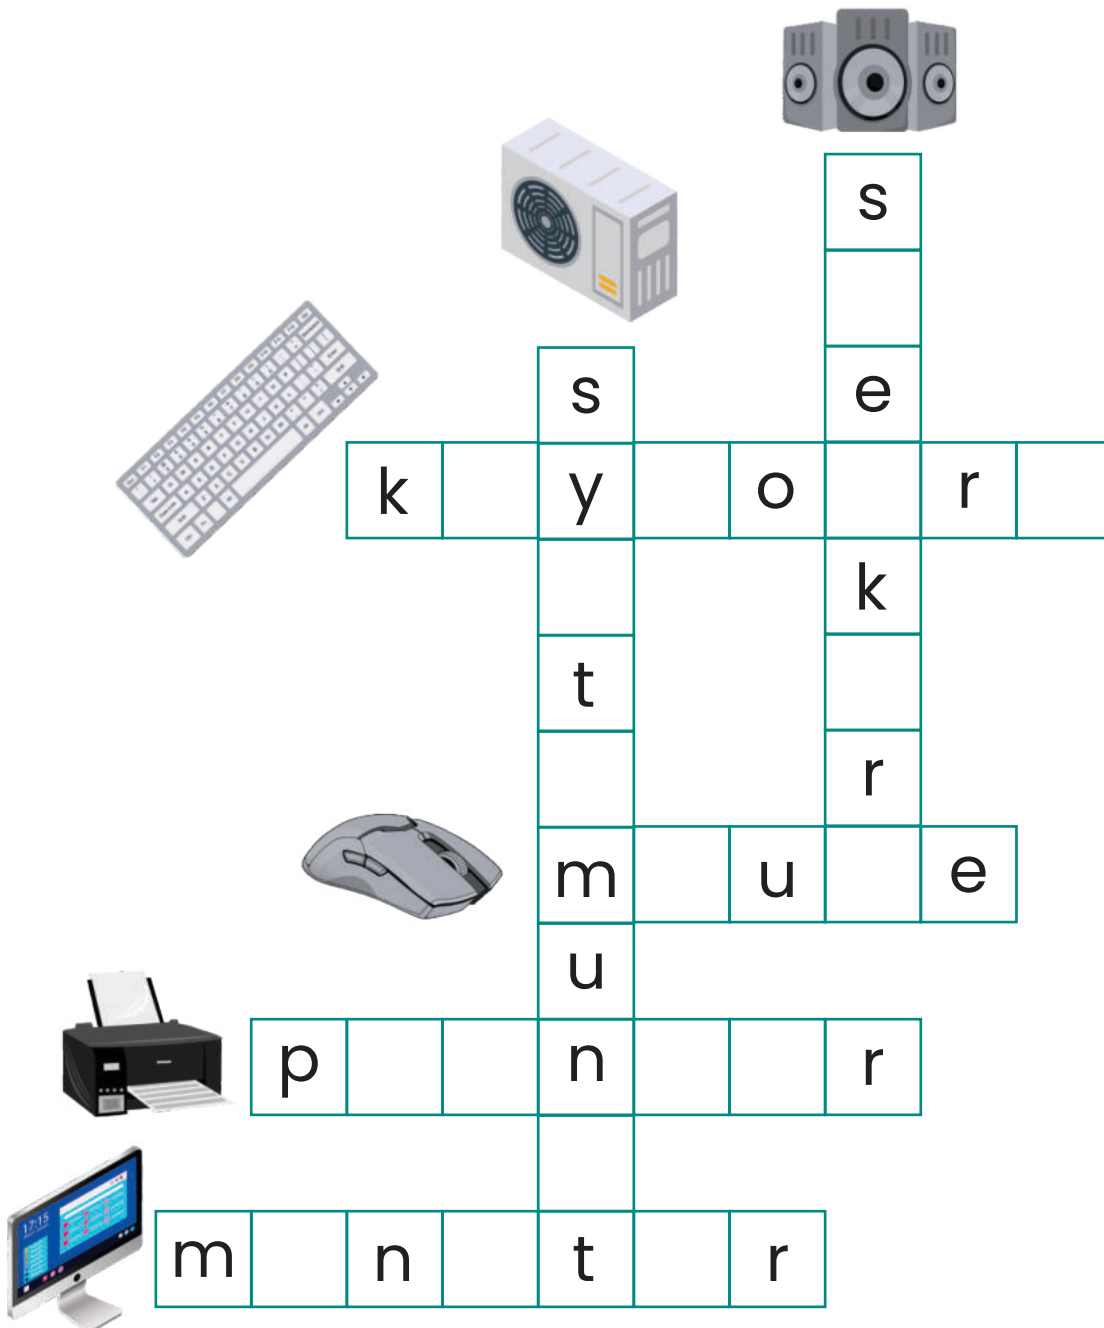

EXERCISE 1

UNIT 2

COMPUTER FUNDAMENTALS

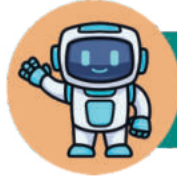

Fill in the boxes to complete the parts of a computer.

UNIT 2

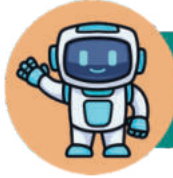

COMPUTER FUNDAMENTALS

EXERCISE 2

Name the different types of a computer.

EXERCISE 3

UNIT 2

COMPUTER FUNDAMENTALS

Fill in the blanks by using given words.

laptop

electronic

sizes

fast

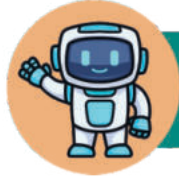

data

1. A computer is an _____ machine.
2. Computers are available in different shapes and _____.
3. A _____ is smaller than a desktop computer.
4. A computer operates by taking in _____ as input.
5. Computers are _____ and accurate.

UNIT 2

COMPUTER FUNDAMENTALS

EXERCISE 4

Mark "True" or "False".

TRUE

FALSE

We use computers at home to book seats and buy tickets.

☐☐

We use computers in offices to play games.

☐☐

We use computers in hospitals to keep patient records.

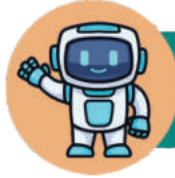

☐☐

We do not use computers to read the news online.

☐☐

We use computers to complete paperwork faster than people.

☐☐

EXERCISE 5

UNIT 2

COMPUTER FUNDAMENTALS

Answer the following questions.

1) What is a computer?

Ans: _____

2) How does a computer work?

Ans: _____

3) How many parts does a desktop computer have?

Ans: _____

4) Name four places where computers are used?

Ans: _____

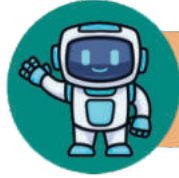

5) What are the advantages of a computer?

Ans: _____

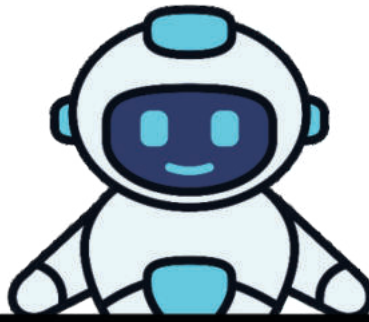

UNIT 2

COMPUTER FUNDAMENTALS

ACTIVITY

Create a simple diagram of a computer system on a colourful computer paper, labelling its key components like the monitor or screen, CPU, keyboard, and mouse.

Discuss how each component functions.
