

UNIT 4

MULTIMEDIA: WORKING WITH SHAPES

Learning Objectives

- Draw simple shapes.
- Use the "Fill with Colour" tool.
- Use different types of brushes.
- Use the "Rectangular Selection Tool".
- Use the "Curve Tool".

UNIT 4

MULTIMEDIA: WORKING WITH SHAPES

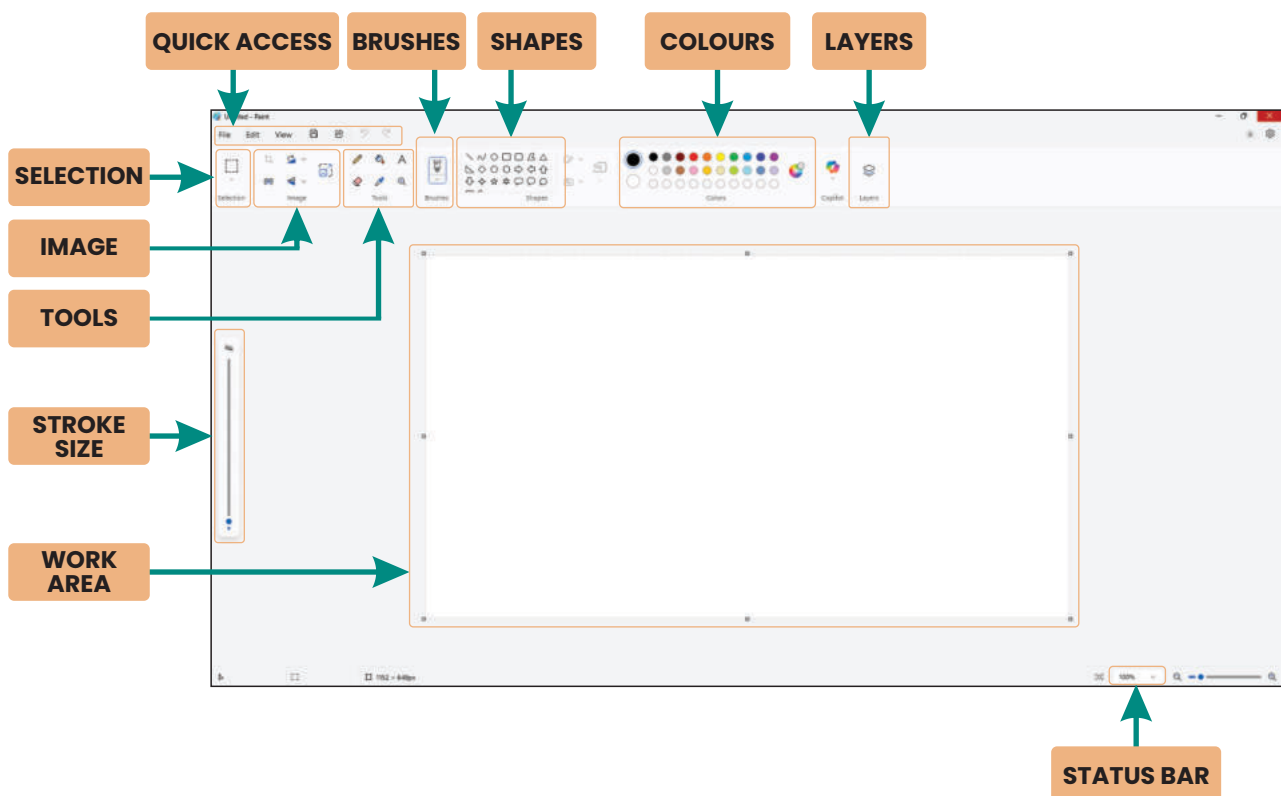

MS PAINT

MS Paint is a fun and easy-to-use computer program that helps you draw and colour pictures. With MS Paint, you can use different tools to make shapes, add colours, and write words on your drawings. It's like having a digital drawing pad where you can create your own art and make simple changes to pictures.

DRAWING OBJECTS USING THE SHAPE TOOLBOX

In this section, we will explore how to create different objects using the Shapes Toolbox in MS Paint. By learning how to combine these shapes, you can make creative and detailed drawings. Let's take a closer look at the shapes available and how each one can be used to bring your ideas to life. As an example, you can draw a house using rectangles and triangles.

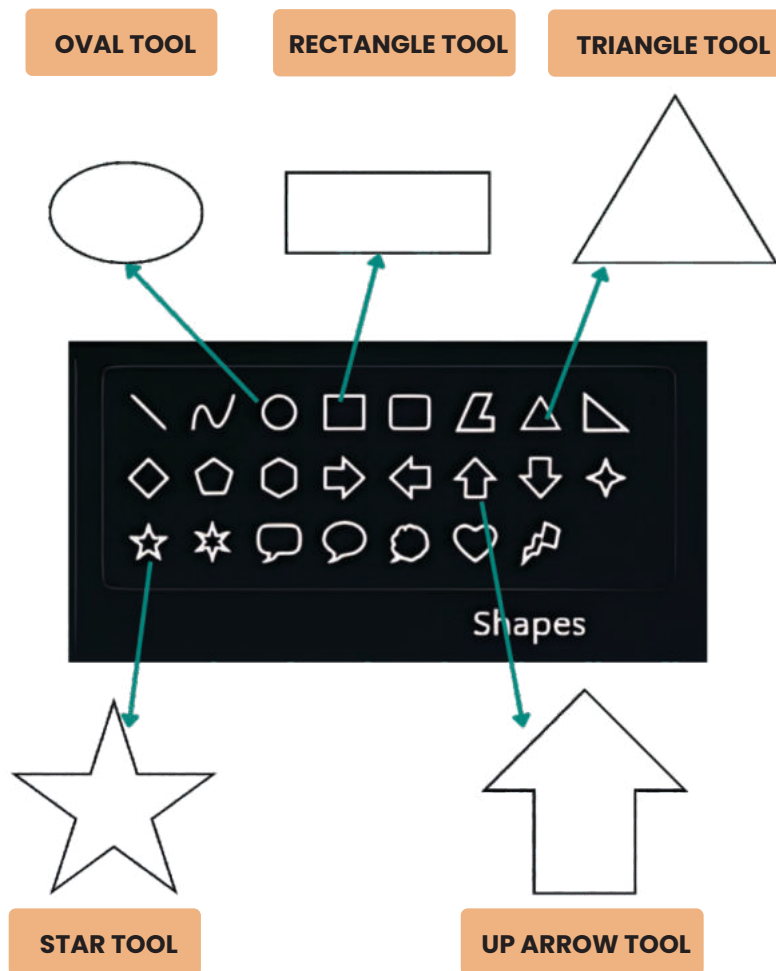

UNIT 4

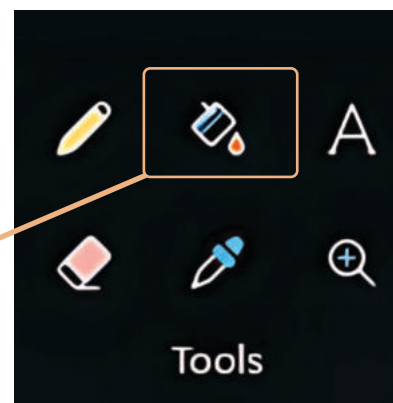

MULTIMEDIA: WORKING WITH SHAPES

The Shapes Toolbox offers a variety of shapes like ovals, rectangles, triangles, stars, and arrows that you can use to draw almost anything!

THE FILL WITH COLOUR TOOL

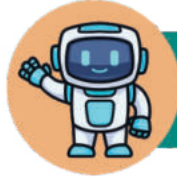

Use the Fill with colour tool to fill the shapes with colour.

MULTIMEDIA: WORKING
WITH SHAPES

LAB ACTIVITY

Instructions

- 1. Open MS Paint** on your computer.
- 2. Select Your Shapes:** Use the Shapes Toolbox to select basic shapes like the Oval, Rectangle, Triangle, and Line tools.
- 3. Create Your Object:** Follow the instructions below to draw each object. Combine different shapes to represent different parts of each object.
- 4. Add Colours:** Use the Fill with Colour tool to colour each part of your drawing.
- 5. Save Your Work:** Save each drawing with a different name (e.g., "My Clock," "My Ice-cream," etc.).
