

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

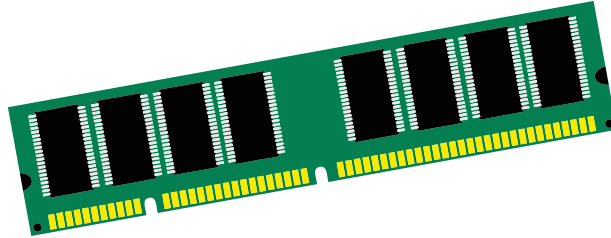

Learning Objectives

- Identify primary storage devices like RAM.
- Identify secondary storage devices like hard disk, DVD, pen drive and memory card.

PRIMARY STORAGE DEVICES

Primary storage devices are used to store data temporarily while working on computer.

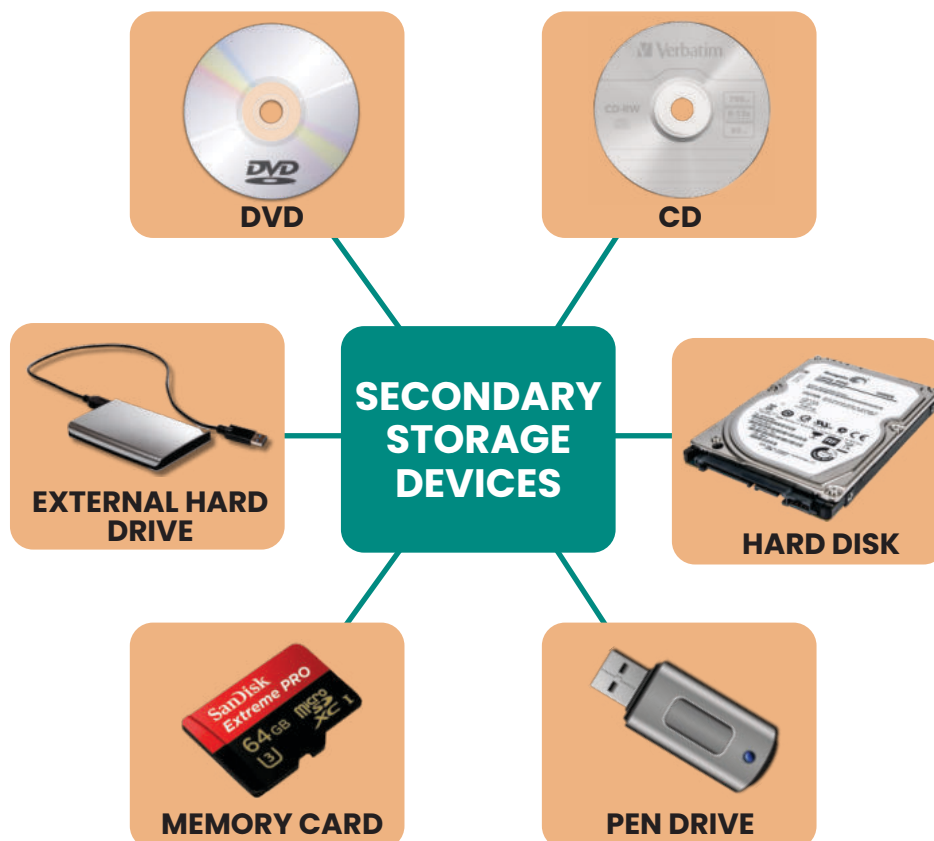

- RAM helps the computer to work and think fast.
- Data in RAM is lost when the computer is turned off.

SECONDARY STORAGE DEVICES

Secondary storage devices are used to store information.

Examples:

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

UNIT 5

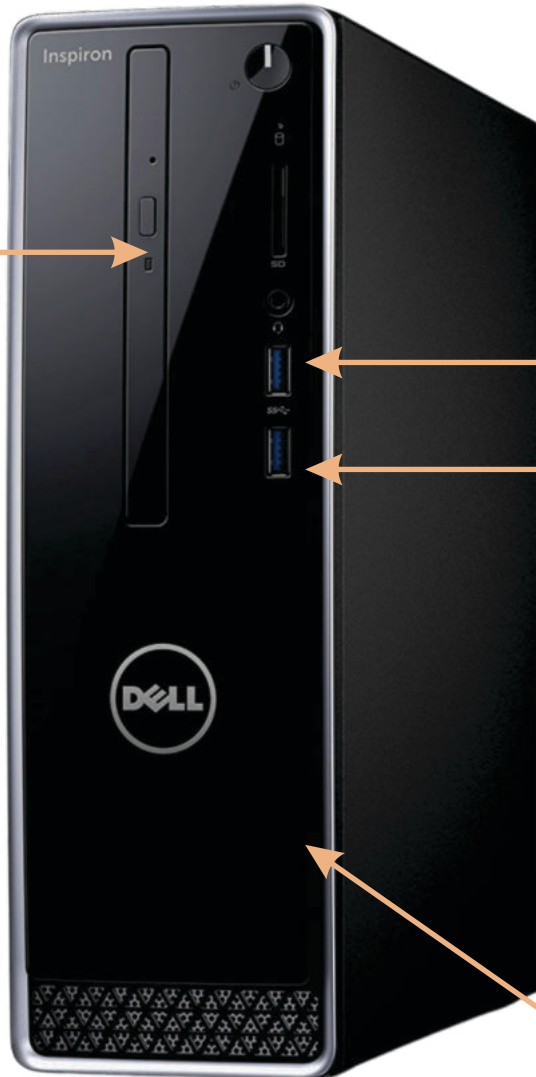

PRIMARY AND SECONDARY STORAGE DEVICES

SECONDARY STORAGE DEVICES AND THE SYSTEM UNIT

CD/DVD

PEN DRIVE

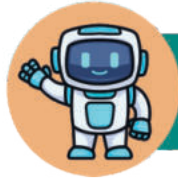

EXTERNAL
HARD DRIVE

HARD DISK

Memory cards
are used in
mobile phones.

EXERCISE 1

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

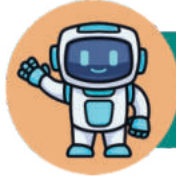

Circle the parts which store information.

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

EXERCISE 2

1. I (✓) the Hard disk.

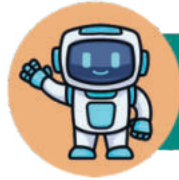

☐☐

2. I (✓) the Pen drive.

☐☐

3. I (✓) the Memory card.

☐☐

EXERCISE 3

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

Choose the correct answer.

1) A _____ is a small portable device used to store and transfer files, also known as a USB drive.

A DVD

B Pen drive

C Hard disk

2) A _____ can hold more data than a CD and is often used to store movies or software.

A Memory card

B CD

C DVD

3) The _____ is the main storage device inside a computer that holds all the data and files.

A Pen drive

B Hard disk

C Memory card

4) A _____ is a flat, circular disc used to store music, videos, and software, but it holds less data than a DVD.

A CD

B Hard disk

C Pen drive

5) A _____ is a small storage device often used in cameras and phones to save photos and videos.

A Memory card

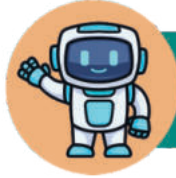

B DVD

C Hard disk

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

EXERCISE 4

Mark "True" or "False".

TRUE

FALSE

A DVD can hold more data than a CD.

☐☐

A pen drive is also known as a USB drive.

☐☐

The hard disk is an external storage device.

☐☐

A memory card is often used in cameras and phones.

☐☐

The taskbar is found at the top of the desktop.

☐☐

A CD can store more data than a Hard disk.

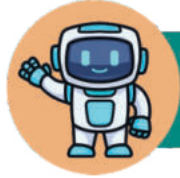

☐☐

When I delete a file, it goes to the recycle bin.

☐☐

The desktop is the main screen on your computer where you can see and open your program.

☐☐

EXERCISE 5

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

Answer the following questions.

1) What is a pen drive, and what is it used for?

Ans: _____

2) Which device holds more data: a CD or a DVD?

Ans: _____

3) Where is the hard disk located?

Ans: _____

4) What does the desktop contain?

Ans: _____

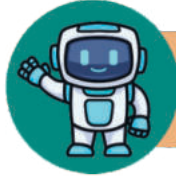

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

5) Where is the task bar located?

Ans: _____

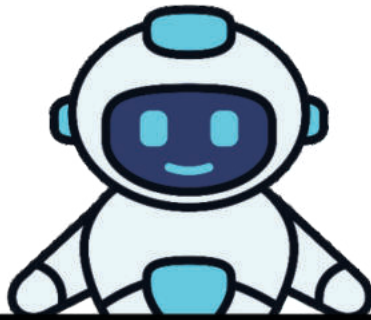

LAB ACTIVITY

UNIT 5

PRIMARY AND SECONDARY STORAGE DEVICES

Lab Visit

- Take the students to the computer lab.
- Once in the lab, show them how each storage device is connected to a computer.

For example:

- 1) Insert a CD/DVD into the computer's drive.
 - 2) Plug a pen drive into a USB port.
 - 3) Insert a memory card into the card reader slot.
- Demonstrate how to open and access files from each device on the computer.
