

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

Learning Objectives

- Format text using basic formatting tools (bold, italic, underline).
- Cut, copy, and paste text appropriately.
- Align text for proper presentation (left, center, right)

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

In this unit, we will learn essential skills in MS Word that help make your documents look organized. You will learn how to cut, copy, and paste text, apply basic formatting styles, and align text for a better presentation.

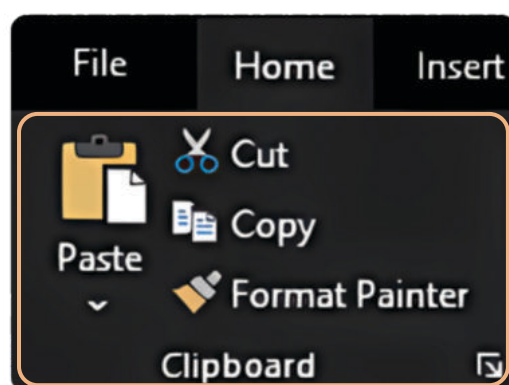

CUT, COPY, AND PASTE TEXT

1. Copy: Use this feature to duplicate text.

- Select the text you want to copy.
- Right-click and select **Copy** or use the keyboard shortcut **Ctrl + C**.
- Move the cursor to where you want the copied text, right-click, and select **Paste** (or press **Ctrl + V**).

2. Cut: Use this to move text from one place to another.

- Select the text you want to cut.
- Right-click and select **Cut** or use **Ctrl + X**.
- Move the cursor to a new location, right-click, and select **Paste** (or press **Ctrl + V**).

When you have selected a text or a picture, you can use the right click option to cut, copy or paste your text or picture instead of using the buttons on the clipboard.

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

FORMATTING TEXT

1. Bold: Makes text darker to emphasize it.

- Select the text you want to bold, then click on the **B** icon in the toolbar or press **Ctrl + B**.

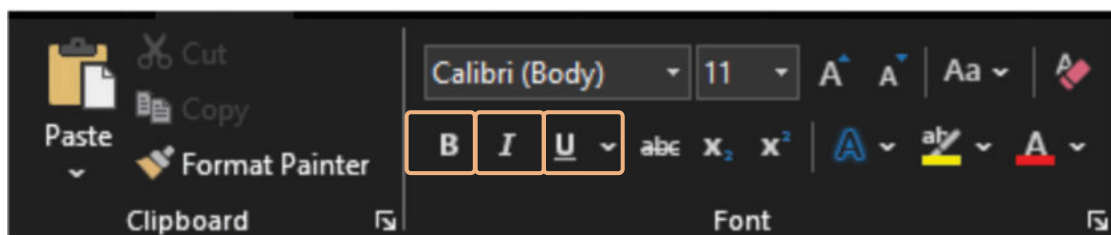

2. Italic: Slants text to make it stand out.

- Select the text and click on the *I* icon in the toolbar or press **Ctrl + I**.

3. Underline: Adds a line under the text for emphasis.

- Select the text, then click on the U icon in the toolbar or press **Ctrl + U**.

ALIGNING TEXT

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

1. Left Align: Aligns text to the left side of the document.

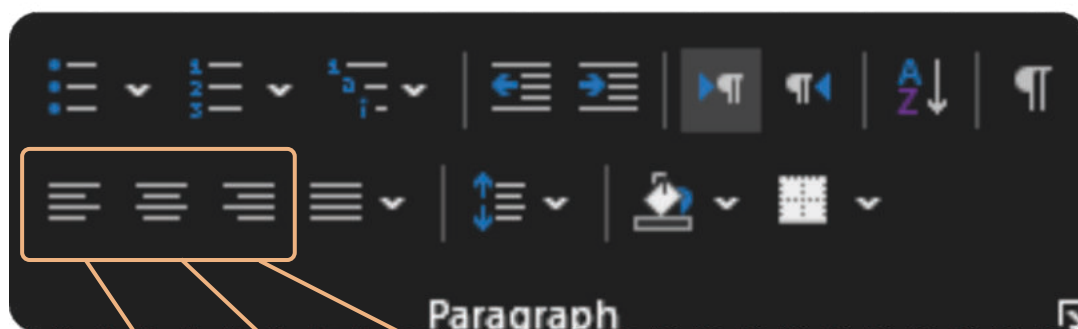

- Select the text and click on the **Align Left** icon in the toolbar or press **Ctrl + L**.

2. Center Align: Centers the text in the middle of the document.

- Select the text and click on the **Center** icon in the toolbar or press **Ctrl + E**.

3. Right Align: Aligns text to the right side of the document.

- Select the text and click on the **Align Right** icon in the toolbar or press **Ctrl + R**.

Tip: Use alignment to organize text for readability, such as centering a title or aligning paragraphs to the left.

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

DO YOU KNOW?

Alphabet keys

The **Alphabet keys** are used to type letters.

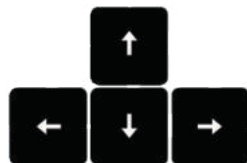

Numbers keys

The **Number keys** are used to type numbers.

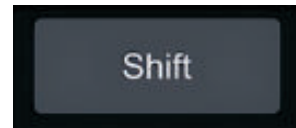

Arrow keys

The **Arrow keys** are used to move the cursor up, down, right, and left.

EXERCISE 3

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

1. I open MS Word 2019.
2. I type the following text.

Science Fair Project

"Our class is preparing for the upcoming science fair. For my project, I will be demonstrating how plants absorb water using food colouring."

1. Cut Text:

- Select the words "**science fair**" from the heading. 
- Right-click and select **Cut** or use the keyboard shortcut (Ctrl + X).

2. Paste Text:

- Place your cursor after the word "**project**" in the second sentence. 
- Right-click and select **Paste** or use the keyboard shortcut (Ctrl + V).

3. Copy Text:

- Select the words "**how plants absorb water**" in the second sentence. 
- Right-click and select **Copy** or use the keyboard shortcut (Ctrl + C).

4. Paste Text Again:

- Place your cursor at the beginning of the heading / title before the word "**project**". 
- Right-click and select **Paste** or use the keyboard shortcut (Ctrl + V).

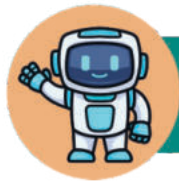

UNIT 6

DEVELOPING WORD PROCESSING SKILLS

I click on paste the text and it should appear like this:

How plants absorb water Project

"Our class is preparing for the upcoming science fair. For my project science fair, I will be demonstrating how plants absorb water using food colouring."

EXERCISE 4

Fill in the blanks by using given words.

cross

type

numbers

letters

shift
