SHAPES

SHAPES

- Learn the names of shapes.

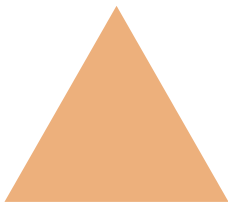

Semi-Circle

Square

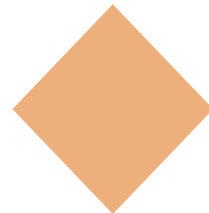

Rectangle

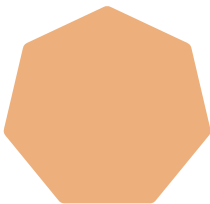

Triangle

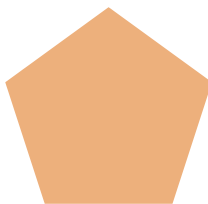

Trapezium

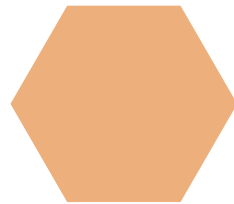

Diamond

Heptagon

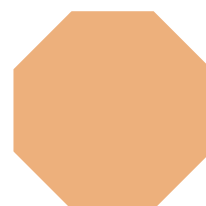

Pentagon

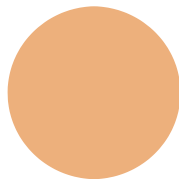

Hexagon

Parallelogram

Octagon

Circle

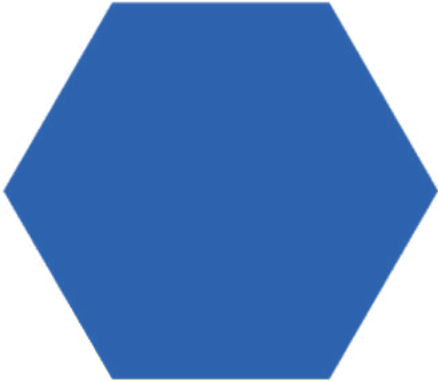

Star

● Draw and colour the shapes in empty boxes.

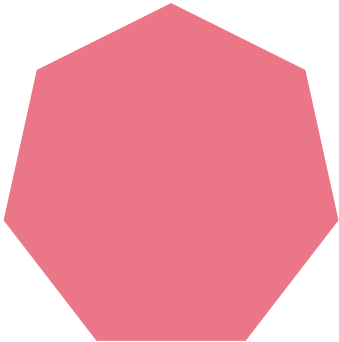

Star

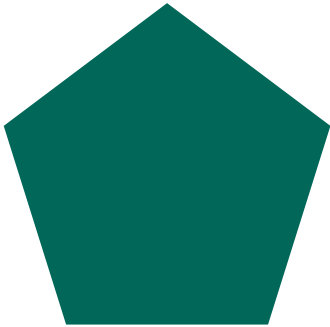

Hexagon

Heptagon

Pentagon

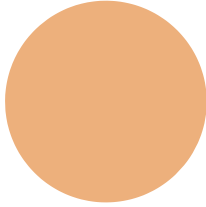

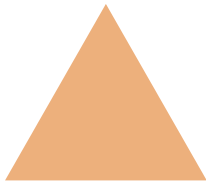

SHAPES

- Match the following.

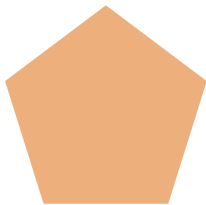

Triangle

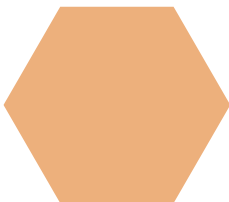

Pentagon

Circle

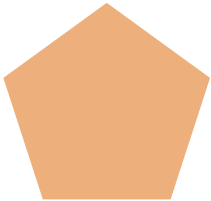

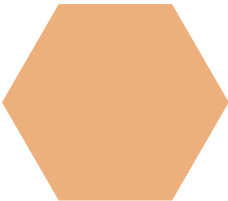

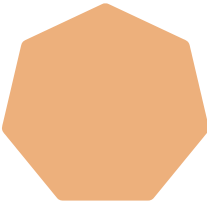

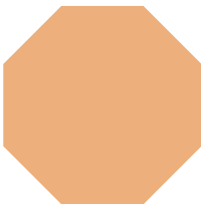

Hexagon

Rectangle

- Look at each shapes in the table below. Count and write how many “sides” and “corners” they have. Then write the names of the shapes.

Shape	How many sides?	How may corners?	Name
			
			
			
			
			

● Write the names of the shapes.

Square

Pentagon

Octagon

Rectangle

Star

Circle

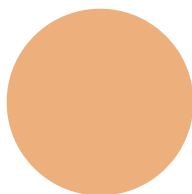

Semi-Circle

Hexagon

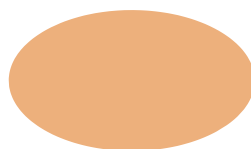

Oval

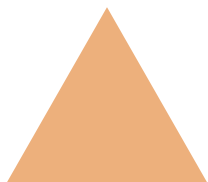

Triangle

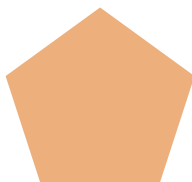

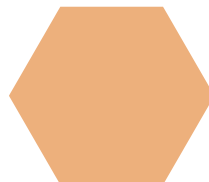

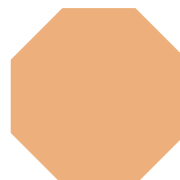

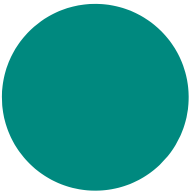

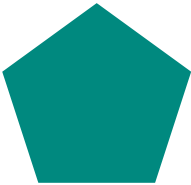

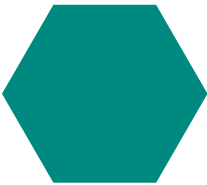

● Count the sides of each shapes and choose the correct answer below.

 534	 321	 143
 206	 153	 326
 148	 341	 2310

You did it! You have mastered new maths skills like numbers, shapes, and patterns. Maths is like a superpower that helps you everywhere you go. Keep practising and see how much more you can achieve!
